

1

## WHAT YOU NEED TO INSTALL UPTIVO

-  Uptivo Bridge
-  Power Socket
-  WiFi Bluetooth antenna (included)
-  Monitor, TV o Projector
-  ANT+ Antenna with extension cable (included)
-  HDMI cable (included)
-  Power Adapter (included)
-  Ethernet Cable and Network Port (preferred solution) or WiFi connection

2

## HOW TO CONNECT UPTIVO BRIDGE

Connect the WiFi/Bluetooth antenna. Insert the ANT+ antenna in the extension cable and connect the cable to a USB port on the Bridge. Connect the power Adapter to the Uptivo Bridge DC port and to a power socket.

3

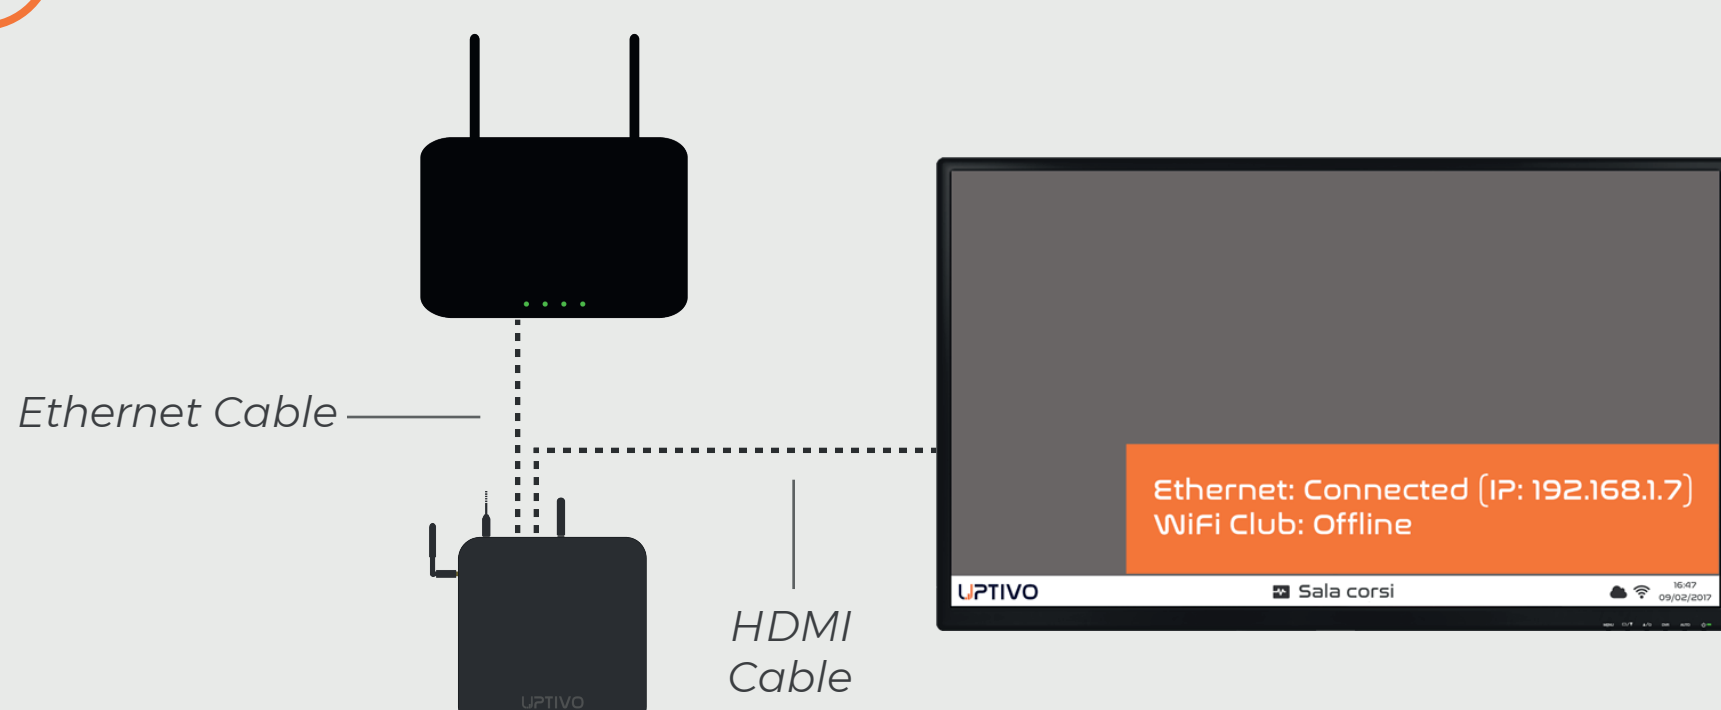

## HOW TO CONNECT UPTIVO TO A MONITOR

Connect the HDMI cable to the HDMI OUT port of Uptivo Bridge and to the monitor or projector that will display the user tiles.

4

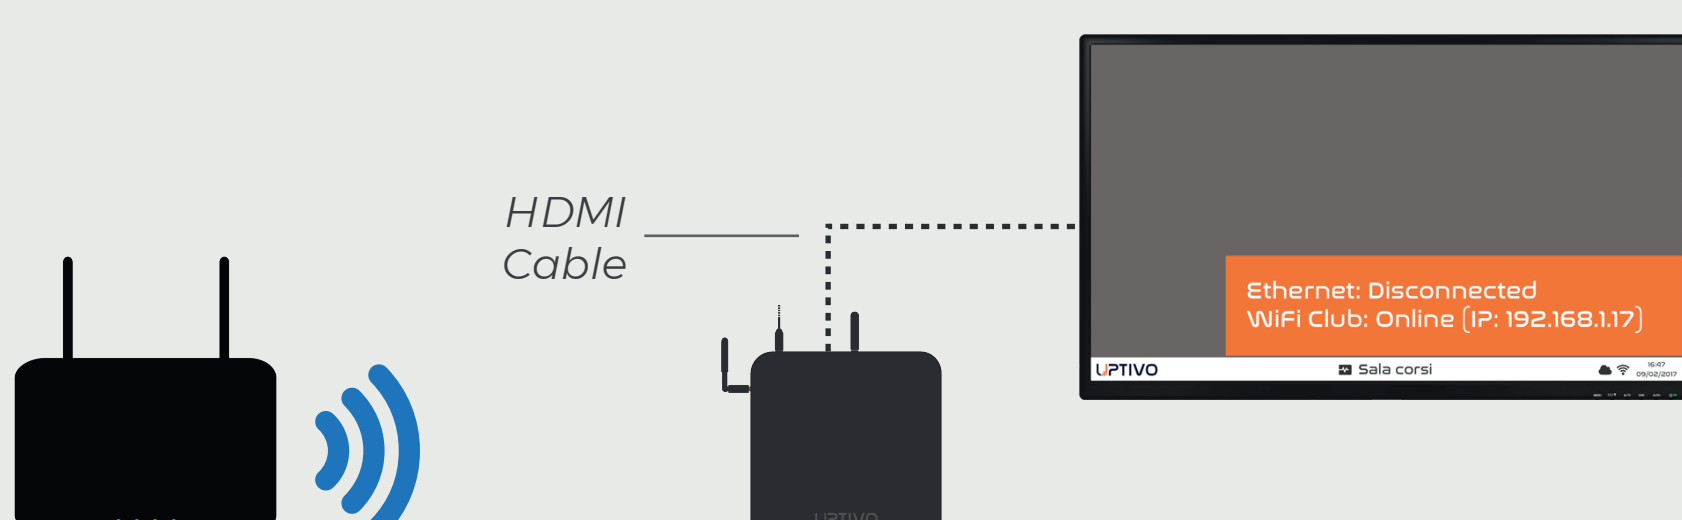

## CONNECTION VIA ETHERNET CABLE

Connect an Ethernet cable to the Uptivo Bridge LAN port and to your router or to an active port on your Club's network. Take note of the IP address assigned by your network to Uptivo Bridge as displayed in the orange box..

5

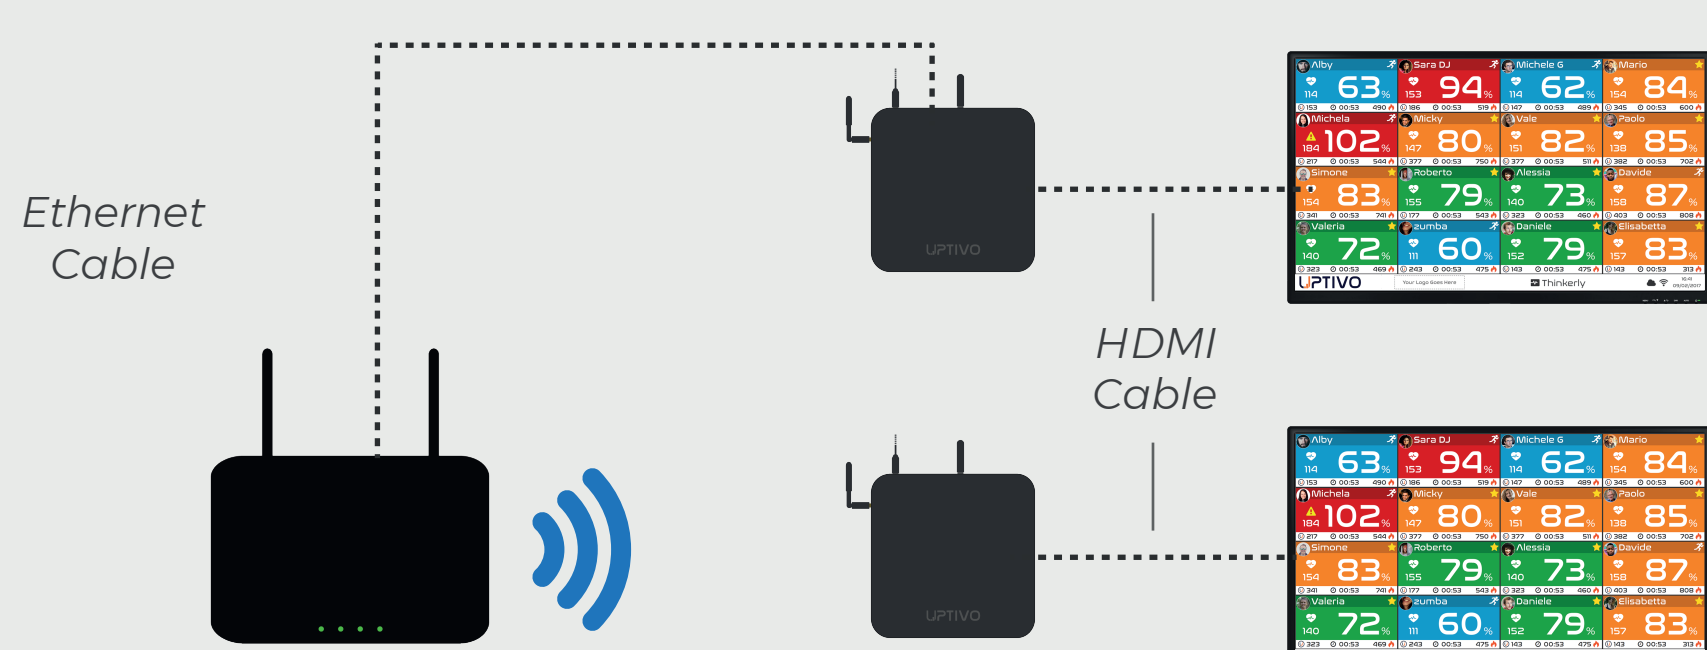

## CONNECTION VIA WIFI NETWORK

Connect your computer/tablet to the Uptivo Bridge WiFi network (Uptivo-xxxxxxx). Open a browser, type the 10.0.0.1 address and enter the password "uptivo". Go to Settings / Wi-Fi, select your Club's WiFi and enter its password. Take note of the new IP address as displayed on screen in the orange box.

6

## CONNECTING MULTIPLE UPTIVO BRIDGE

You can connect multiple Uptivo Bridge to your network via Ethernet or WiFi cable to cover every area of your club. The Bridges will interact with each other, exchanging data, and will save all trainings made in the Club on the Uptivo Cloud.
