

2ND EDITION

INTECH USION INDIA

23 JULY, 2026

LALIT ASHOK, BENGALURU

Building India's Financial Architecture for 2047

Building India's Financial Architecture for 2047

Fintech Fusion India 2026 is built around “Building India's Financial Architecture for 2047” – the belief that the next wave of fintech growth will not come from isolated breakthroughs, but from connected ecosystems. It's India's most credible market access and intelligence platform on Financial Services.

It is a multi-city movement with series of focused one-day leadership forums built for depth, relevance and outcome-driven engagement. Anchored in Bengaluru, the edition will bring together senior leaders across policy, banking, fintech, capital, technology and global financial innovation to shape conversations around India's financial architecture for 2047.

The forum will feature a high-impact Business Stage, closed-door Leadership Labs, curated innovation showcases and leadership networking, creating a platform where ideas, institutions and market opportunities converge across DPI, AI and financial trust, MSME credit, tokenisation, GCC-led fintech innovation, cross-border finance, GIFT City and India's fintech roadmap for global scale.

Fintech Fusion India is a beginning of an era, Bengaluru has given rise to many fintech activities, good to see FFI starting off here.

Chandru Iyer,

British Deputy High Commissioner to Karnataka & Kerala, His Majesty's Deputy Trade Commissioner - South Asia (Investment), British High Commission

We are talking about the future tech, we are talking about the operating system of a new economy, we need to innovate boldly, regulate wisely and build inclusively. This is the fusion we should envision at Fintech Fusion India.
