2021

Experience

Ubiquity Media
IT Specialist/Project Manager (Web Development)

Los Angeles (Work from Home)
July 2025 - Present

- Led end-to-end digital projects, handling planning, execution, and delivery across web, automation, and system initiatives using Notion and Asana.
- Managed web development from UI/UX design to deployment using website builders, creating responsive and conversion-focused websites.
- Built and optimized automation systems (Zapier, dashboards, web apps) while handling technical issues and integrations to improve efficiency and team productivity.

Nest Marketing
Website Developer (Part-time)

Canada (Work from Home)
March 2026 - Present

- Designed and developed responsive websites using Framer. From wireframing to design and to full deployment.
- Created clean, user-focused UI/UX layouts and translated them into functional, high-performing web pages.

Upwork
UI/UX Graphic Designer (Freelance)

Work from Home
January 2023 - Present

- Designed user interfaces and user flows using Figma, creating wireframes, prototypes, and design systems based on client requirements. Created user interfaces using Figma for websites, email designs, wireframes, prototypes, and component layouts.

BBT Online Global Inc.
IT Project Intern & UI/UX Graphic Designer

Makati City, Philippines
Feb 2025 - May 2025

- Coordinated internal IT-related initiatives, supporting planning, task tracking, and execution of system maintenance and digital improvement projects.
- Designed website landing pages and UI layouts using Figma, focusing on clean structure, usability, and conversion.
