### WORK EXPERIENCE

Jun 21 - Present

#### Osmo by Byju's | Senior Product Designer

- Spearheaded the creation and expansion of Osmo for Schools web platform empowering educators & administrators to track and drive learning outcomes with 20+ Osmo education games.
- Scaled product reach with a dedicated ID Service, facilitating separate logins/SSO for students and teachers, resulting in a 5x boost in user adoption and engagement.
- Designed gamified experience of an AI-driven iPad and iPhone app using Osmo-SDK, empowering kids and preteens to draw on paper and apply AI-generated coloring.
- Won 2023 internal hackathon in Best New Category for designing & creating MusikNinja, an app to teach students of age 8+ relative pitch & music theory using Osmo SDK.

Dec 20 - Jun 21

#### Ferns N Petals | Senior Product Designer

- Led the e-commerce back-office overhaul, streamlining operational systems for diverse stakeholders like analysts, marketers, product managers, operations, etc.
- Collaborated with development teams and key business users to deliver efficient designs, saving up to 60% time & 30% OpEx for 4 internal teams.

Jul 18 - Oct 20

#### Litifer | Product Designer

- Developed a voice-controlled edutainment app for children of ages 3-10 that breaks the mould of conventional digital consumption.
- Leveraged user insights from community interviews with kids and parents to build intuitive, voice-powered mobile interfaces.

Sep 16 - Jun 18

#### Barnish | Co-founder

Empowered producers/artists with affordable, precision preamps for pristine audio recording.

Jun 15 - Dec 15

#### Larsen & Toubro | Architect

Supervised building construction progress & ensured quality & timely construction of DLF - The Chanakya Shopping Center.
