Please contact us with the use of contact details specified in section 1 of this Privacy Notice in relation to exercising these rights. Note that we may ask you to verify your identity - such as by requiring you to provide information about yourself - before responding to such requests.

Submitting a Verifiable Request under the CCPA

California residents have certain rights regarding their personal information under the California Consumer Privacy Act of 2018 (“CCPA”). Toloka will respond to an individual's "verifiable request" to exercise his or her rights under the CCPA - that is, where Toloka has received a request purporting to be from a particular individual, and Toloka has been able to verify the individual's identity. The need to verify an individual's identity is critical to protecting your information, and to ensuring that your information is not shared with anyone pretending to be you or someone who is not authorized to act on your behalf.

You may submit a verifiable request with the use of contact details specified in section 1 of this Privacy Notice. We will ask you to provide information about yourself so that we can verify your identity as part of this process. This information may include your name, address, whether you have an account with Toloka, and other information deemed necessary by us to reasonably verify your identity. Once we have your submission, we will compare the information you provided to the information we have about you to verify your identity. If necessary, we may ask for additional information if we have difficulty confirming your identity. We will not share your information or honor other requests in those situations where we are unable to confirm that a request for your information is a "verifiable request". We will not be able process your request if we cannot verify your identity.

Submitting a request through an authorized agent

Under California law a California resident can appoint an “authorized agent” to make certain verifiable requests upon their behalf, such as the right to know what information we collect about the consumer or to request deletion of the consumer's information. An authorized agent may submit a request by following the steps outlined above. An authorized agent must identify the consumer he or she is submitting a request on behalf of, and provide the information requested by Toloka to verify the consumer's identity. We will also require the purported authorized agent to submit proof that he or she has been authorized by the consumer to act on the consumer's behalf.

Because the security and privacy of your information is paramount, we will ask that you identify and provide permission in writing for such persons to act as your authorized agent and exercise your applicable rights under California law in such situations. This may require us to contact you directly and alert you that an individual has claimed to be your agent and is attempting to access or delete your information. We will also independently verify your identity to ensure that an unauthorized person is not attempting to impersonate you and exercise your rights without authorization. We will not share your information or honor any other requests in those situations where you cannot or do not grant permission in writing for an identified authorized agent to act on your behalf, or where we cannot independently verify your identity.

Submitting a Request for Removal of Minor Information.

To request the removal of information about a minor by Toloka, parents or guardians may submit a request with the subject line "Removal of Minor Information". Such requests must come from the minor's parents or guardian; minors may not submit information to us via email. Your submission should include the following information:

- the nature of your request;
- the identity of the content or information to be removed;
- whether such content or information is found on Toloka Platform;
- the location on content or information on Toloka Platform (e.g., providing the URL for the specific web page the content or information is found on);
- that the request is related to the “Removal of Minor Information”; and

B. Privacy Information for Residents of Colorado, Utah, Virginia, and Nevada:
