Summary

Product Designer with 5+ years of experience creating intuitive mobile and web products across SaaS, eCommerce, fintech, crypto, AI-powered products, and data-heavy platforms. Skilled in user research, UX strategy, information architecture, wireframing, prototyping, interaction design, motion design, design systems, and high-fidelity UI.

I work closely with product and engineering teams to turn complex problems into simple, user-friendly experiences that improve adoption, engagement, retention, and business outcomes.
