

FAZILKHAN MALEK

Software Developer

SUMMARY

Full Stack Developer with 3+ years of experience designing and delivering scalable software solutions. Skilled in building and integrating user-facing interfaces with robust backend systems, ensuring seamless performance and high-quality user experiences. Experienced in code reviews, debugging, and maintaining clean, efficient codebases in fast-paced, high-impact environments. Proficient across modern front-end and back-end technologies, with a strong foundation in UI/UX principles and product-focused development.

EDUCATION

Sal College Of Engineering | 2024-2028

B.E. Computer Engineering (Pursuing)

CS50 (HarvardX) – Online | 2025-2026

Rumi English High School | 2022-2024

Higher Secondary (Science)

WORK EXPERIENCE

Promacle | Jan 2025 - Present

Product Architect

- Owned architecture and delivery of scalable, real-world applications from concept to production
- Built high-impact, user-centric solutions with strong focus on performance and usability
- Collaborated across product, design, and engineering to ensure clean architecture and rapid iteration

Dprofiz Ltd | 2025 - 2026

Lead Developer Intern

- Led development of an IoT-enabled waste management platform with smart bin integration
- Architected and implemented reward system logic to drive user engagement
- Delivered scalable solutions by integrating software systems with IoT devices

MiroFish AI | 2025 - 2026

AI/ML Developer Intern

- Developed an intelligent assistant system using ML and NLP for context-aware automation
- Built end-to-end AI pipelines from data processing to real-time inference
- Improved system intelligence and user interaction through adaptive AI models

SKILLS & STRENGTHS

Languages: Python, JavaScript, SQL

Framework & Tools: Flutter, Supabase, Firebase, Git

AI/ML: PyTorch, NLP, Model Inference

Core Concept: System Design, REST APIs, UI/UX, Scalable Architecture

Personal: Leadership, Problem Solving, Time Management, Critical Thinking, System.

PROJECTS

- AI-based diet plan generator tailored for Indian users with context-aware recommendations which Tested across 500+ user scenarios
- AI food product scanner that analyzes ingredients and provides health insights (Python, Javascript & NLP)
- M.A.V.I.S – personal AI assistant for context-aware interaction and task automation
- Pharmacy business dashboard for inventory, sales tracking, and operational insights improved business growth by 78%.
