Profile

Product Designer with experience building intuitive web and mobile experiences in Agile and Scrum environments. Skilled in Figma, Photoshop, and Illustrator, with strong proficiency in no-code tools like Framer for seamless design and digital content delivery. Experienced in product management practices, including product ownership, backlog prioritization, and cross-functional collaboration. Knowledgeable in HTML, CSS, and JavaScript to effectively bridge design and development. Focused on end-to-end product thinking, aligning user needs with business goals, and continuously improving digital experiences through structured, data-informed, and user-centric solutions.

Professional Experience

UX/UI Designer, *Acespire Consulting Solutions*

2024 Oct – present

Bangalore, India

Led end-to-end product design for two major digital products, covering discovery, research, prototyping, testing, and Agile delivery. Collaborated cross-functionally, supporting product ownership through backlog prioritization and sprint planning to align user needs with business goals. Also led website redesign and improved digital content delivery through structured product practices.

Achievements

- Launched two major products with improved usability and engagement.
- Revamped the website, enhancing navigation and user experience.
- Delivered scalable, user-centric solutions through strong Agile collaboration.

Junior Associate UI/UX Designer, *Omnicom Media Group (Annalect India)*

2023 Jun – 2024 Jul

Bengaluru, India

Managed project timelines, tasks, and deliverables for web and mobile interface design projects. Designed intuitive user interfaces using Figma, Photoshop, and Illustrator, emphasizing usability and aesthetic appeal. Efficiently managed digital assets to streamline design processes. Conducted user research and integrated feedback to continuously improve designs.

Achievements

- Led successful delivery of multiple web projects, demonstrating strong design and project management skills.
- Implemented AI-driven enhancements that improved user interaction and engagement metrics.
- Recognized for innovative solutions that enhanced overall user experience and client satisfaction.

Freelance Designer

2022 Jun – 2023 May

Bengaluru, India

Designing user-focused screens for apps and websites, delivering high-fidelity prototypes, and collaborating with clients to create digital experiences.

Projects

Provinyx – Acespire's Digital Product Passport (DPP) , Acespire Consulting Solutions

- A DPP platform designed to enable product lifecycle transparency, compliance, and traceability through structured digital records.
- Led the project end-to-end from logo and brand identity to the design and delivery of a website, dashboard, and two mobile applications ensuring a cohesive, scalable, user-centric ecosystem.

Chainshields Product Design , Acespire Consulting Solutions

- Led complete brand creation from logo identity, visual system, and design language to UI design and developer-ready handoff.
- Managed full product lifecycle for its anti-counterfeiting & supply-chain platform, including dashboard UI, SCM mobile app, and end-user authentication app.

Acespire's Agentic Ai , Acespire Consulting Solutions

- Designed complete brand identity and UI systems for HireOn, NexLead AI, and DigiMark AI—ensuring a unified, scalable design language across all products.
- Built end-to-end product flows: HireOn for automated hiring, NexLead AI for AI-driven lead generation, and DigiMark AI for content creation, scheduling, and social media management.

Acespire Website Redesign , Acespire Consulting Solutions

- Designed a responsive website with an intuitive UI, chatbot integration, and enhanced user flows.
- Led the project end-to-end, ensuring smooth execution, data integration, and timely delivery.
