- Available in 1,2 and 4 Channel Kits
- 50m (164ft) Bluetooth Range
- Eliminates Live Work (ELW)
- Test Multiple Channels Simultaneously
- 10 Hour Battery Life

**Maximise  
Safety**

**Eliminate  
Live Work**

**Wireless  
up to 50m**

**Purpose Built for  
Heavy Industry**

The **SafeTest DI Series** is designed to remotely measure clearances, tolerances and wear on machine components safely and efficiently – out of the line of fire.

Capable of measuring up to 10mm (0.39inch) of displacement with an accuracy of 0.01mm (0.0004inch) and wireless connectivity of up to 50m (164ft) away, the SafeTest DI Series is recognised as a new industry standard.

Packaged in a rugged hard shell carry case, with built-in charging harness, the SafeTest DI Kit is always ready to go at a moment's notice.

“The SafeGauge products are a great addition to our tooling inventory. Tooling that removes personnel from the footprint of the machine.

The MultiTool allows for easy testing of multiple circuits at the same time. Being able to measure multiple channels at the same time significantly shortens testing duration.”

-Hastings Deering

SafeTest DI2 Kit

## Standard DI Kit Sizes

- 1 Channel
- 2 Channel
- 4 Channel

Custom kits and accessories are available on request.

SafeTest Field Service Kit, also featuring the SafeTest Pressure Transducer (PT Series)
