EXPERIENCE

Senior Visual Designer

PAJ GPS (Germany) – Remote

Sep 2021 – Present (Joined via YUHIRO, hired directly in Nov 2023)

- Create motion graphics, product explainers, campaign visuals, and digital marketing assets for B2B GPS tracking products across web, social, and product communication channels.
- Translate complex product features and technical workflows into engaging visual storytelling through motion, video, and layered digital design.
- Design scalable visual systems, product-related assets, and brand-aligned campaign materials while maintaining consistency across digital touchpoints.
- Collaborate remotely with marketing, product, and engineering teams to support product launches, feature communication, and customer-facing visual experiences.

Graphic Designer

W3Infotech – Kochi, India

Jan 2021 – Sep 2021

- Designed digital marketing creatives, UI-related visuals, and campaign assets aligned with brand guidelines and business goals
- Produced visually engaging layouts using strong typography, composition, and color systems.
- Collaborated with developers and marketers to deliver optimized assets for web and mobile platforms.

Graphic Designer

Infolks – Palakkad, India

Jun 2017 – Feb 2021

- Developed brand identities, marketing visuals, and digital assets for in-house products and platforms.
- Created compositions combining imagery, typography, and graphic elements for campaigns and promotions.
- Built reusable templates and visual assets to improve consistency and production efficiency.

EDUCATION

Graphic Design Training & Internship – Whitemarker, Palakkad (2017 - 2018)

Bachelor of Computer Science – University of Calicut, India (2013–2017)

ADDITIONAL STRENGTHS

- Visual exploration & concept development
- Strong typography and layout sensitivity
- Brand consistency across multi-channel outputs
- Cross-functional collaboration & feedback-driven iteration
