## Summary

Hi! I am Ana, a multidisciplinary graphic designer and BFA Graphic Design student at the University of Houston. My work focuses on creating exciting visual identities, and design systems that balance creativity with clarity. Through research, experimentation, and problem-solving, I develop concept-driven design solutions that communicate ideas in engaging and meaningful ways.

## Education

|                                                       |                                              |
|-------------------------------------------------------|----------------------------------------------|
| <i>San Jacinto Community College</i>                  | GPA: 3.34                                    |
