

Emily Pi

Senior UX Designer

Designer with 6+ years of experience in multiple aspects of design and management including UX and UI design, AI tools, graphic design, and illustration. Key skills include strong interpersonal skills and communication as well as being able to grasp new concepts quickly and solve problems. A firm believer in collaboration and going above and beyond to create the best solutions.

EXPERIENCE

The Home Depot

UX Designer — June 2022

UX Designer 2 — August 2023 - April 2026

Senior UX Designer — April 2026 - Present

- Responsible for developing and communicating creative concepts to product and engineering partners while maintaining larger online business objectives.
- Creating and guiding the creation of wireframes, prototypes, and interaction patterns that outline the behavior and flow of the post-purchase experience for both B2C & B2B users.
- Conducting usability testing and research to discover and assess the effectiveness and efficiency of a product's user interface and iterating based on findings.

Mid-Ohio Food Collective

Visual & Web Designer — November 2021 - June 2022

- Designing visual elements and experiences such as brand elements, illustrations, and UI for both internal and external web and mobile applications.
- Designing and collaborating on marketing materials with social media, marketing, customer advocacy, and development teams.
- Conducted usability testing and research with a wide range of users to understand the needs of a new platform to discover local food and housing resources.

ROWE Creative Union

Visual Designer — January 2020 - October 2021

- Sketched and rendered ideas to develop 3D models of various architectural designs for multiple retail businesses.
- Designed brand assets, illustrations, and animations for both digital and architectural platforms.
- Experience with rapid prototyping and visualization to communicate ideas, design structure, and function to determine execution with stakeholders and customers.

EDUCATION

Columbus College of Art & Design
