Smoother Application, Tougher Protection

Jotafloor

PU CRETE PLUS

Industrial Flooring is Mission-Critical

In demanding industrial environments from food processing to pharmaceutical, flooring is mission-critical - not just a surface, but a key to safety, efficiency, and compliance.

The right flooring must:

- **Withstand thermal shock** without cracking or failing
- **Resist harsh chemicals** to avoid degradation and contamination
- **Maintain hygiene** to prevent bacterial growth
- **Withstand heavy traffic & impacts** from forklifts and machinery
- **Reduce slip risks** to keep workers safe
- **Comply with regulations** like HACCP and ISO standards

High-performance flooring isn't optional - it's essential.

Jotafloor PU Crete Plus
The Ultimate Solution

Jotafloor PU Crete Plus is made to survive through though chemical spills, extreme changes in temperature, intensive deep cleaning and high Impact. It is tested and certified with HACCP, and is sutibale for use in sensitive areas.

Get longer durability, lesser maintenance , so you keep your services up and running longer with fewer closures.

FEATURES & BENEFITS

Ease of Application

EASY TO APPLY
Allows easy and efficient application

Tested & Certified

HACCP CERTIFIED
Helps in controlling and reducing significant food hazards

LOW VOC
Less odour, contributes to achieving LEED certification

ANTI-MICROBIAL
Ensures a high-free of hygiene

Superior Durability

SUPERIOR MECHANICAL PROPERTIES
Sustained protection over a long period of time

EXCELLENT CHEMICAL RESISTANCE
Prevents degradation when exposed to organic acids & solvents

TEMPERATURE RESISTANCE
Withstands thermal shocks

HIGH IMPACT RESISTANCE
Resistant to heavy equipment

SLIP RESISTANCE
Ensures a safe environment

Approved by

Complies with

ASTM INTERNATIONAL

Jotafloor PU Crete Plus
Superior Performance to meet all needs

Designed with your needs in mind. Wherever flooring must withstand the toughest conditions while maintaining safety and compliance, Jotafloor PU Crete Plus delivers superior performance.

Beverage Manufacturing

Food & Beverage Processing Industry

Food & Beverage Processing

- Meets hygiene and food safety regulations
- Anti-microbial properties
- Resistant to chemical cleaning agents, chlorinated sanitizers, fats & oils
- Thermal protection from -25°C to 60°C

Recommended System

Product	DFT, µm	# Coats
Jotafloor PU Crete Plus	1000	1
Jotafloor PU Crete Plus	2000 - 3000	1

Cold Storage & Freezers

- Meets hygiene and food safety regulations
- Thermal protection from -25°C to 90°C
- Chemical resistant

Recommended System

Product	DFT, µm	# Coats
Jotafloor PU Crete Plus	1000	1
Jotafloor PU Crete Plus	3000 - 5000	1

Cold Storage

Pharmaceutical & Healthcare Facilities

- Anti-microbial properties
- Resistant to chemicals and cleaning agents
- Thermal protection from -25°C to 60°C

Recommended System

Product	DFT, µm	# Coats
Jotafloor PU Crete Plus	1000	1
Jotafloor PU Crete Plus	2000 - 3000	1

Colours

Jotafloor PU Crete Plus is available in matt finishes to ensure slip resistance. We offer a range of eight colours, designed for an aesthetically pleasing finishing touch.

LIGHT GREY

YELLOW

RED

DARK GREY

GREEN

CREME

PALE GREEN

BLUE

Colour may vary in actual application, kindly request a physical sample.

Colour will change upon exposure to sunlight but that does not affect the product performance.

Seamless Hygiene with Jotafloor PU Crete Coving

Jotafloor PU Crete Coving creates a smooth, curved finish where the wall meets the floor - eliminating sharp corners where dirt and bacteria can hide. Easy to clean, durable, and protective, it ensures a safer, more hygienic environment while extending the life of your floors and walls. With Jotafloor PU Crete Coving, cleanliness and protection come built-in.

Jotafloor PU Crete Plus is a high performing floor coating designed for demanding industrial environments; delivering smoother application, tougher protection, and long-term performance. Don't compromise - upgrade to a solution built for safety, durability, and compliance.
