PROFESSIONAL SUMMARY

Entry-level UI/UX Designer with internship experience and a strong portfolio of self-initiated design projects. Skilled in user-centered design, interaction design, wireframing, prototyping, and creating high-fidelity mockups in Figma. Familiar with information architecture and designing intuitive user flows for mobile and web interfaces. Actively practises usability principles and shares work publicly on Twitter/X to gather feedback, iterate on designs, and continuously grow as a designer.

SKILLS

Design Tools: Figma, Framer

Design Skills: Wireframing, Prototyping, Interaction Design, User-Centered Design (UCD), Usability Testing, Information Architecture, Responsive Design, Visual Hierarchy, High-Fidelity Mockups, User Flows, Accessibility Basics, Design Systems

Frontend Technologies: HTML5, CSS3, JavaScript, Tailwind CSS

Soft Skills: Attention to Detail, Team Collaboration, Communication, Time Management

EXPERIENCE

Intern

June 2023 - July 2023

UTKRISHT Summer Training Program, USICT - New Delhi

- Designed and developed a responsive e-commerce website (Stylish Steps) using HTML5, CSS3, and JavaScript, applying interaction design principles to create an engaging user interface across 5+ screen sizes.
- Defined information architecture and user flows for the platform, reducing navigation complexity and improving overall usability.
- Created wireframes and high-fidelity mockups before development, ensuring a consistent visual design system across all pages.
- Collaborated with a 3-member team to meet project milestones and deliver the complete product within a 6-week timeline.

PROJECTS

FitBuddy - Fitness App Design

- Designed a fitness tracking app in Figma — created information architecture, user flows, wireframes, and high-fidelity mockups across 8+ screens focused on simplicity and usability.
- Applied user-centered design and interaction design principles; iterated on prototypes based on peer feedback to improve the overall user experience.

Furniture Brand Landing Page

- Designed a conversion-focused landing page in Figma for a furniture brand, structuring the information architecture across hero, product, and CTA sections for a clear user journey.
- Applied visual hierarchy, spacing, and typography principles to create a design system with consistent components reused across 4+ page sections.

Photographer Portfolio

- Designed and developed a minimal, visually-driven portfolio for a photographer directly in Framer, focusing on full-bleed imagery, elegant typography, and a refined colour palette to showcase work effectively.
- Structured the layout and user flow to guide visitors from the hero section to the portfolio gallery and contact CTA with minimal friction.

EDUCATION

Bachelor of Technology, Computer Science

2020 - 2024
