

## PLATFORM UPDATE

# Now an all-in-one collection platform.

Collect every source a case touches, search across all of it, and produce into multiple formats.

**NOW COLLECTING** Phone · Email · Social media · Financial records · Documents · AI chat history

## What's new

### Email

Gmail, Outlook, iCloud, and any IMAP account, server to server. Search by sender, keyword, folder, and date.

### Financial transactions

Bank, credit card, and investment accounts from 12,000+ institutions through Plaid. Two years, auto categorized.

### Social media

Facebook, Instagram, Threads, and LinkedIn direct messages, with no password sharing.

### AI chat history

ChatGPT, Claude, and Gemini conversation history, collected straight from the account.

### Client Upload Portal

A new guided collection flow for the custodian. No account to create, with equipment and live help built in.

### Files & Documents

Request specific documents and collect additional files stored on the custodian's computer.

### Review portal upgrade

Search and tag across every source, compare conversations side by side, and translate messages, all in the portal.

### Hardware Rental Program

Rent laptops, external drives, or cables for phone collections instead of buying them.

## PRICING

### Pay per collection.
