EXPERIENCE

Amadeus, Remote

Jul 2021 — March 2026

WEB DESIGNER

Created 100+ websites using a proprietary CMS for a range of hotels globally. Using provided assets from clients to create a unique and interactive experience.

- Utilized Figma to create custom websites with elements that would be implemented into the CMS as components with the flexibility to show variable data content
- Conducted multiple design proposal and progress meetings with clients leading up to the finalized and approved deliverables
- Improved usability of custom websites by providing developers with annotated feedback and technical specifications using Asana, to eliminate bugs
- Consulted with project managers on the CMS capabilities and limitations to enhance client understanding of the product
- Contributed to design feedback and QA rounds for deliverables made by other designers on the team before they were presented to clients
- Elevated visual fidelity of provided branding elements by replacing pixelated raster assets with traced SVG assets to maintain clarity at all screen sizes
- Contributed to the creation of an expanding and reusable icon library for common room and hotel amenities and activities

Ayana Therapy, Remote

Feb 2021 — Jun 2021

DESIGN INTERN

Applied design thinking methods under a brand manager to conceptualize and iterate on diverse product deliverables.

- Collaborated with another designer in Figma to redesign the admin dashboard used to manage personnel data for therapists and patients
- Redesigned the company website using Wix to align with a new B2C market strategy, improving site navigation and visual branding to enhance brand storytelling and user engagement
- Maintained daily website content updates for newly affiliated therapists
- Contributed to the standardization of branding assets by creating a kit which included approved logo usage, social media post templates, and email signatures

Phoneix Magazine, Orlando, FL

Jan 2020 — May 2020

DESIGNER

Executed the design and production of a collegiate art and literary magazine in a collaborative team of 6, leveraging Adobe InDesign, Illustrator, and Photoshop to transform student submissions into a high-quality publication.

- Conceptualized editorial vision and structural layout for the magazine, ensuring a cohesive aesthetic and engaging progression
- Developed a comprehensive suite of promotional assets, including physical posters and digital social media campaigns, to drive engagement and publication awareness
