About Us

Framandi Doors is a premium UAE interior door brand by Al Sheraifi Group. Specializing in high-quality, bespoke European door systems, Framandi combines refined aesthetics, precision engineering, and superior craftsmanship to create door solutions for residential, commercial, and hospitality projects. With a focus on concealed designs, flush finishes, and high-spec Italian wood, Framandi delivers doors that enhance interiors with elegance, durability, and timeless appeal. Its commitment to quality materials, innovative design, and meticulous attention to detail ensures every door seamlessly blends functionality with sophisticated style, making it an ideal choice for contemporary architectural spaces.

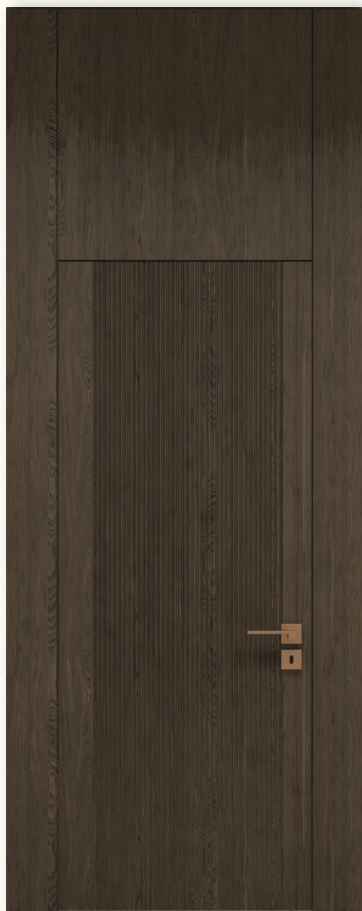

METAL LINE FD-01

Modern interior doors designed for your luxury home. Crafted from premium Italian wood with delicate metallic lines, this interior door offers a touch of understated luxury. It is the perfect choice for bedrooms, internal entrances, and high-end villas.

AXIS DUO FD-02

A modern interior door designed with clean geometry and balanced proportions. The dual horizontal lines create a contemporary architectural look, finished with high-spec wood materials and precise detailing.

LINEAR FD-03

A contemporary design with elegant vertical lines that reflect refined simplicity and quiet luxury. The Linear door model features a balanced texture and a modern finish, making it a perfect solution for luxury interior doors.

CROSSLINE FD-04

A contemporary design with refined horizontal and vertical lines that create a distinctive architectural rhythm and visual depth. The Crossline door model features precise panel divisions and a balanced texture, offering a strong yet elegant presence.

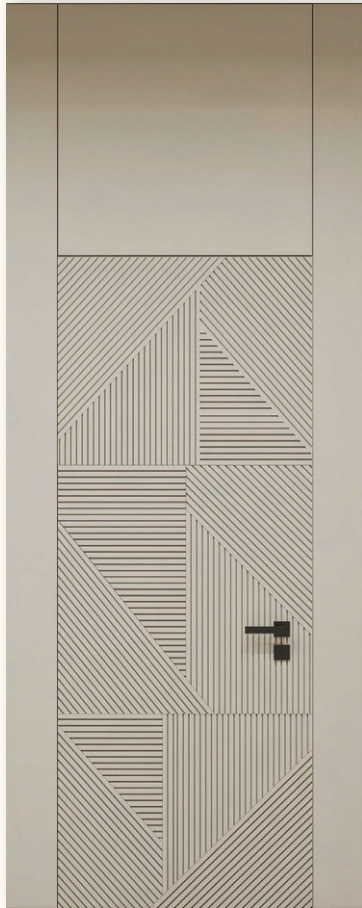

SERENITY STRIA FD-05

A refined design with delicate vertical lines accented by a central metallic strip, expressing calm elegance and contemporary luxury. The Serenity Stria model blends warm wood textures with a subtle metallic detail, creating a serene yet distinctive presence.

SAND WAVES FD-06

A refined design inspired by flowing sand waves, featuring smooth curved lines complemented by an elegant metallic accent that conveys calm sophistication and modern luxury.

CHEVRON FD-07

A refined geometric design based on an architectural Chevron pattern, where intersecting lines and precise angles create visual depth and structured movement. This modern interior door features a carefully balanced arrangement of engraved lines.

SILENT CUT FD-08

A minimal interior door defined by clean horizontal panel breaks and a seamless push-bar handle that becomes part of the design. No excess detail, just precise craftsmanship and quiet confidence, ideal for modern residential and hospitality spaces.

QUADRO FD-09

The Quadro model represents modern interior doors through precise geometric divisions and clean linear detailing that create visual balance and architectural clarity.

GEOMETRIC HARMONY FD-10

The Geometric Harmony door embodies modern interior door design through carefully balanced geometry and intersecting lines that enhance architectural expression.

STRIPES FD-11

The Stripes model introduces modern interior door design through vertical linear detailing that adds visual depth and a sense of height to interior spaces.

METAL LINES FD-12

The Metal Lines model represents modern interior door design through vertical metal detailing that enhances height and architectural elegance within interior spaces.

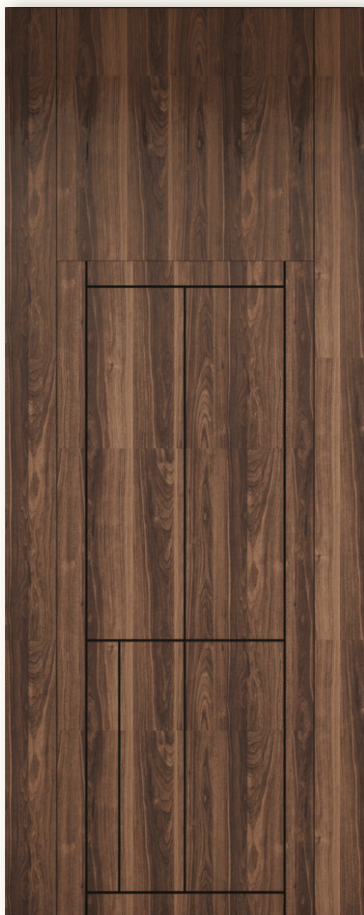

WALL-FLUSH FD-13

A modern wall-flush interior door designed to sit perfectly aligned with the wall, creating a seamless and minimalist architectural look. Crafted using high-spec engineered wood with premium finishes.

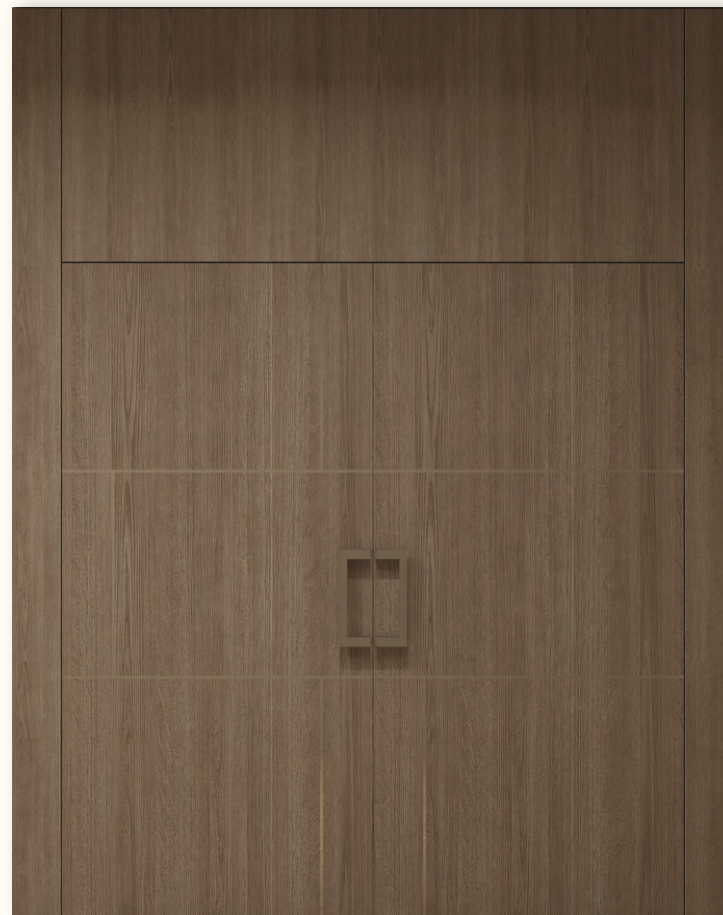

SIMPLE FD-14

A clean and minimal interior door with a plain design and no decorative details, created for modern and functional spaces. Manufactured using high-spec engineered wood with a durable finish.

CONTOUR ONE FD-15

Contour One door features a refined geometric design defined by subtle, well-balanced linear details. The combination of vertical and horizontal lines creates a sense of structure and visual depth while maintaining a clean, modern aesthetic.

PURE FD-16

The Pure model represents modern design in its simplest form. Clean lines and balanced geometric panels with no added details, creating a calm and elegant look that complements contemporary interiors.

OFFSET FD-17

The Offset model features a contemporary design defined by a subtle contrast in lines, highlighted by an off-center vertical metal detail that adds character without overwhelming the simplicity.

ORIZZONTE FD-18

The Orizzonte model features a contemporary design defined by clean horizontal lines that create a sense of visual balance and calm. The integrated horizontal metal detail adds a subtle touch of elegance without compromising the simplicity of the door.

LINEA FD-19

The Linea model represents refined simplicity through a clean, minimal design with no unnecessary details. Its smooth surface and straight lines allow the door to blend seamlessly with the surrounding walls.

SCAVA FD-20

A door that feels architectural. Clean geometry, refined grooves, and a calm presence that elevates the entire space.

ONE V FD-21

Quiet geometry, perfectly balanced. A single line can change everything: subtle contouring, clean shadow lines, and precision finishing that elevates modern interiors without noise.

ELEGANCE FD-22

A refined interior door built around a centered recessed panel framed by clean shadow lines. The restrained geometry creates visual focus without ornamentation, resulting in a calm, architectural presence suited to contemporary luxury interiors.

REFLEXION FD-23

A striking interior door that contrasts light wood with a deep-toned glossy panel insert, creating a bold material dialogue within a clean, structured frame. The interplay of matte and reflective surfaces gives the door a layered, editorial quality designed for spaces that make a statement.

TRADITION FD-24

A double door blending classic luxury with a modern touch. Features refined recessed panelling and premium finishes for a timeless, architectural look perfect for grand entrances.

VERTA FD-25

A contemporary white door defined by a striking vertical black accent strip. Its clean geometry and high-contrast detailing make it a perfect fit for modern, minimalist interiors.

STRATA FD-26

A modern door showcasing a sophisticated grey wood grain with asymmetrical panelling. The intersection of horizontal and vertical lines creates an urban, architectural statement.

STRATUM WOOD FD-27

A refined door featuring natural wood grain with a unique diagonal pattern. A vertical dark accent strip complements the earthy tones, offering a warm yet modern organic feel.

CALM FD-28

A serene grey door featuring subtle horizontal groove detailing and clean vertical lines for quiet, sophisticated elegance.

LEATHER VIBES FD-29

A luxurious floor-to-ceiling door defined by its rich, tactile leather texture and seamless design for high-end interiors.

Features

Framandi doors combine refined surfaces, concealed hardware, resilient finishes, and carefully engineered construction. Each detail is selected to support long-term performance while preserving the quiet architectural elegance of the design.
