Sample file for the Accession template. Replace it with a plan of your own building.

Where	What to expect
Long Gallery	Loud: the rope-making machine runs Saturday and Sunday at 11 am and 2 pm, for about 10 minutes. Ear defenders at the front desk.
Hackling Loft	Dark: light is kept low (50 lux) to protect textiles and photographs. Torches and magnifiers at the top of the stairs.
Tarring Room	Strong smell of pine tar, stronger on warm days.
Hemp Store	Echoey when full.
Quiet places	The Counting House when not booked, the benches at the far end of the Long Gallery, and the bench by the gate in the Tar Yard.
Quiet hour	Every Sunday, 10 am to 11 am: no groups, the film runs silent with subtitles, and the machine does not run.
