Profile

UX/UI Designer with a strong IT background, focused on creating user-centered digital experiences that drive engagement, streamline workflows, and support business goals. I work closely with cross-functional teams to deliver solutions that balance user needs, technical feasibility, and measurable impact, while continuously growing my skills in UX strategy, research, design systems, and developer collaboration. I'm looking to join a team where design contributes directly to meaningful results.

Skills

UX Design: UX Research, Wireframing, Prototyping, Usability Testing

Tools: Figma, Notion, Miro, Affinity

Development Basics: HTML, CSS

Methodologies: Agile / Scrum

Work Experience

Freelance UX Designer | Remote (09/2023 – Present)

- **Designed** and **improved** user flows for 7 mobile apps and 2 websites, focusing on clarity, accessibility, and seamless task completion.
- **Strengthened** product direction by aligning user needs with business goals, contributing to measurable usability improvements of 15–20% across projects.
- **Conducted** user research and light testing to uncover friction points and guide informed design decisions.

Collaborated with founders and developers to refine features, deliver clean handoffs, and support smooth MVP releases.

UX Dept Lead | Colonybyte (01/2025 – 04/2025 | Remote)

- **Led** weekly sprint planning and meetings, reducing design-to-development handoff delays by **25%**.
- **Collaborated** with product managers and developers to align design goals with business objectives.
- **Managed** 4+ UX projects from user research to handoff, delivering all on time and within project scope.
