EXPERIENCE

UI/UX Designer

June 2024 - June 2025

Futurex

Remote

- Spearheaded engagement with executive stakeholders to identify strategic opportunities and design impactful MVPs leveraging Futurex cloud technologies.
- Led the design and development of CryptoHub, a comprehensive platform for key management, hardware security modules (HSM), PKI, and data protection.
- Refined and expanded the design system, creating consistent and scalable UI patterns across multiple applications.
- Enhanced the onboarding experience for users, reducing friction and improving product adoption.

Associate Product Designer

April 2022 - June 2023

SkyHive

Palo Alto, CA

- Designed and launched a web-based application, Job Architecture, a scalable B2B solution that organizes a job catalog more effectively for organizations, resulting in Barclays' conversion of 35,000 positions to 150 clusters.
- Conducted a customer beta program to gather ongoing feedback for our MVP, identifying pain points and usability issues, and presenting actionable improvement suggestions.
- Developed a feature roadmap for SkyHive's enterprise app to significantly enhance key user experiences through iterative feedback loops.

UX Designer

July 2021 - August 2021

Avela

Remote

- Led a 3-week sprint to enhance the usability of Avela's web-based application to make it easier for parents to find the right school for their child. As a result, we improved the application's WCAG scores and reduced the company's liability.
- Interviewed 21 targeted app users to collect data and created an affinity map that helped prioritize issues for the product and engineering teams.
- Collaborated daily with the lead engineer and product designers to implement changes and feedback, ensuring design implementation throughout the project.

Quality Assurance II

Sept 2020 - May 2021

Modus Advanced

Livermore, CA

- Supported various departments through QC batch inspecting (LaserQC and MicroVu machines) while creating documentation for first articles and additional inspection reports.

Powertrain Associate

Dec 2012 - May 2020

Tesla

Fremont, CA

- Certified trainer - trained and mentored new team members on assembly procedures, safety protocols, and quality standards to ensure consistency and efficiency in production.
- Collaborated with engineers to optimize assembly processes and improve workflow efficiency.

EDUCATION

General Assembly

Remote
