Working Experience

2026

Digital Health Design Living Lab ZHdK

In this part-time role, I had the opportunity to further develop Vulvue, my bachelor's thesis project focused on empowerment in gynecology, which got nominated for the SDA, Hochparterre Best of, and the ADC student Award. Alongside this, I co-developed Petal, a digital triage system that received the IDR grant.

2025 to 2026

KiloKilo

Joined the digital agency for a design internship and transitioned into a part-time role, working on UI/UX, conceptual design, and visual projects across multiple industries. Collaborating closely with the agency team on design decisions and transforming initial concepts into final interfaces.

2025

UpLeap

Designed a prototype during my User Experience Design Minor and worked on a dashboard concept for training medical professionals. Pitching visual ideas to the client on design decisions and delivering a conceptual framework for their platform.

2022 to present

Group Fitness Instructor Movemi AG

Leading TaeBo group fitness classes across various Activ and Migros Fitnessparks in the city of Zurich.

2016 to present

Fachfrau Gesundheit EFZ

Completed apprenticeship as a Fachfrau Gesundheit at Klinik Hirslanden, starting with an internship. Continued working at Klinik Hirslanden while gaining broader experience in diverse healthcare settings, including the Oerlikon Vaccination Center and Spitex Zürich Altstetten.
