A Sustainable Future

Zest is proud to be part of a family-owned business which has a long-standing timber heritage, having operated in the industry for over five generations. Zest designs and manufactures an extensive range of high-quality timber garden products.

Zest's award-winning furniture, decorative and GYO ranges use expertly selected, slow grown, FSC®-C114990 certified quality timber from responsibly managed forests. Respecting this natural material over many years, Zest is dedicated to re-planting and nurturing woodland habitat, not just for the health of the planet, but also to benefit future generations.

This year, Zest is working with one of its main Polish manufacturing partners on a re-planting scheme with the Polish Forestry Authority. In Wales, Zest is working towards collaborating with environmental organisations on the sustainable management of wooded habitats.

Zest is working with suppliers with the intention of all packaging being 100% recyclable / reusable by 2023, with a particular focus on reducing plastic. It is also re-manufacturing non-standard pallets into new 'treesaver' pallets, maximising their lifecycle.

Zest is increasing the use of shipping containers over road haulage and maximising loads as part of its commitment to minimising its carbon footprint. The company provides mainland and Northern Ireland online customers with a home delivery service to minimise storage and transportation. Any company waste timber goes to fuel its biomass boilers.

"Making the most of what nature has provided... Timber enhances the way we live and enables us to feel closer to nature benefitting our long term health and wellbeing."

Forest Stewardship Council®

Zest is committed to using responsibly sourced, sustainable, FSC® Certified timber. The company ensures that all timber and timber related products are certified to FSC® standard.

Zest is a Forest Stewardship Council® certificate holder. Being an FSC® certified company is important to Zest as it shows commitment to the environment and to responsible sourcing. Zest actively promotes the advantages of a certified forest management scheme.

The FSC® logo indicates which products are FSC® certified throughout the brochure. Look for our FSC® certified products.

Why Your Customers Love Zest

Zest is a true timber specialist, working this beautiful, natural, sustainable material into products which will delight the user in any outdoor space. It sources the finest slow-grown softwood from ethically managed FSC® certified forests and crafts it into stunning garden furniture, swings, arbours, gazebos, planters, fencing and grow your own products.

Zest's designs are fresh and innovative, combining comfort, style and durability, and the company's focus on consumer convenience has led to the creation of a range of products which are especially easy to build. Not only are they supplied with clear instructions and animated assembly videos, but they also have fewer components, which are simpler to assemble.

Every effort has been made to provide up to date, factual information, but as our policy is one of continual improvement we reserve the right to modify or change specifications as necessary. No liability will be accepted for errors and omissions. All guarantees are conditional and if you are in any doubt as to the term and conditions, please feel free to contact us. All sizes where quoted are approximate and in metric. Products have been measured to maximum exterior dimensions including roof overhang unless otherwise stated. Some specifications may vary due to availability and product improvements. Colour has been applied to some products for photographic purposes only. We take great care in the photographic accuracy of products shown in our brochure, however due to variables in both photographic and printed processes and the natural characteristics of wood, colours may not exactly match the actual products. All orders below £500 will incur a delivery charge (UK Mainland only).

All sizes where quoted are approximate and in metric. Products have been measured to maximum exterior dimensions including roof overhang unless otherwise stated.
Our policy is one of continuous improvement. We therefore reserve the right to modify product designs and specifications without prior notice.

Why Choose Zest?

Zest, as a brand, started in 2005, but its heritage in the timber industry stretches back five generations to 1832 when George Morgan established a timber yard in his native Crieff in Scotland.

Zest is a designer and manufacturer of timber garden furniture, decorative garden structures, planters and grow your own products. It has a deep understanding of the needs and aspirations of today's consumer, and the renewed importance of outdoor space for relaxing, entertaining and growing home produce.

Whatever your customers want from their gardens, yards, patios or balconies, Zest has products to enhance their experience. Made from sustainable, expertly sourced, FSC® certified timber, chosen for natural beauty and durability, the range combines award-winning ergonomic design, unrivalled comfort and easy assembly.

Zest sells to garden centres, major retailing groups and online retailers, has a dedicated sales team of professionals and provides an impressive range of retail support services. These include market-leading home delivery in mainland UK and Northern Ireland, and a wide variety of marketing materials such as animated assembly videos, product images and lifestyle photography.

Delivery Options to suit you Complete Flexibility

Order precisely what you want in the quantity you want and still get great quality and a great trade price.

Home Delivery

Dedicated to delivering exceptional customer support, Zest's home delivery service is easy for retailers to use. Once set up as a customer, the retailer can feature the products it wishes to sell on its own website. When an order is received, Zest will co-ordinate the packing and dispatch of the item for delivery, normally within three to five working days, saving the retailer the need to liaise with its own external delivery company.

Innovate and Strengthen

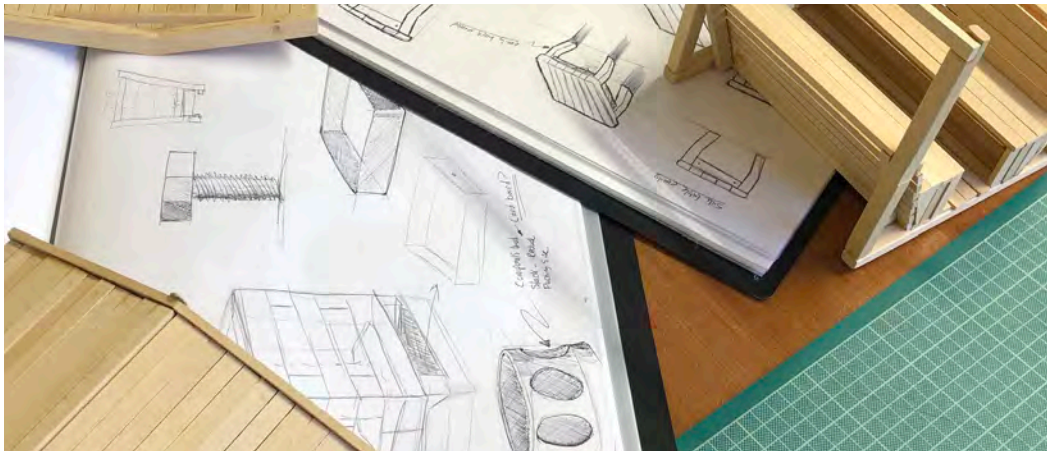

Zest always focuses on the needs of the consumer and the company's philosophy, when it comes to product development, is to spend time listening to today's garden enthusiasts through market research and focus groups. This is 'User Centred Design' at its best and your customers will love the results.

For the 2022 season, the company has built its dedicated new product development centre and recruited a Head of New Product Development, Neil Sholes, to drive the design of products tailored to today's consumer.

Zest has also recruited across operations and logistics and brought in digital expertise both in the UK and Eastern Europe to ensure a continued robust supply chain going forward. Like everyone in the industry, Zest has seen the potential challenges of the pandemic and Brexit on worldwide logistics and is strengthening accordingly to ensure supply sustainability.

The new warehouse management system has been integrated as part of a digital implementation programme across the board. Further developments are ongoing as the company sees significantly increased demand for products such as the Chepstow Arbour and the Burghley Arbour, consistent with consumer trends towards spending more time in the garden.

Zest's managing director, Steve Morgan commented, "All suppliers and manufacturers have faced a unique situation recently with massively increased demand - especially for garden favourites such as the Miami Swing and the Lily Relax seat - creating practical supply challenges never witnessed before. Zest has taken the opportunity to review its supply methodology with a view to making it both robust and future-proof."

A Centre For New Product Development

Zest has invested upwards of £400,000 in product development facilities and personnel ahead of the 2022 season. The company has appointed Neil Sholes into a new role as Head of Product Design and Innovation and has also added a new product development centre at its headquarters.

Neil's remit for Zest is to spearhead a dedicated team researching and designing new products in line with consumer trends, meeting customer product requirements, and further developing key concepts such as 'easy to build'. The Innovation Centre is a state-of-the-art product design innovation suite including research and concept development, the latest CAD design technology, a prototype build area, a production studio, and a marketing zone.

Zest For The Outdoor Life

Making the most of Gardens

Research shows that 23 million households in the UK have their own outdoor space and, according to trade journals, there is 25% more gardening and outdoor activity going on now than compared to before the Covid pandemic. During lockdown, people used their outside spaces more and appreciated not just what was on their own doorstep, but also the levels of activity it offered for a variety of reasons including wellbeing, socialising, home education, for healthy natural, food sourcing and enjoyment.

Growth in Customer Demand

Google searches for garden furniture reached new heights and grow your own is enjoying a resurgence with over two million households entering the market for the first time. Zest is not only designed for its heartland of traditional gardeners who take pride in their gardens, but also for families and younger people who are discovering the pleasure of growing their own produce for the first time as well as enjoying the benefits of having an outdoor space in which they can relax.

Harriet Dining Set

Award Winning Products

Zest is proud to have won a number of GIMA Awards and Glee New Product Awards. Since 2015, Zest has continued to win awards, confirming its commitment to quality and design.

The Burghley Arbour is a proven award winner - it was revealed as the best product in Glee's Garden Leisure and Entertaining category. Its extra deep canopy is not only stylish but provides additional shelter to extend time spent in the garden. It is also extremely comfortable and sturdy and is part of the Zest Easy Build range. Zest has been focusing on convenience for the consumer and is creating products with fewer components which are simple to assemble, like the Burghley Arbour.

GIMA award winner, the Cheltenham Arbour, is one of Zest's most popular products. The beautifully designed high arched roof and deep seat with back rest provides privacy and the ideal place to enjoy the peace and quiet of the garden. Both stylish and practical the arbour comes complete with an under seat storage box.

Joint winner in Glee's Garden Landscaping category, Zest's Cherry Blossom Arch is inspired by Japanese architecture to bring the oriental trend to the garden. Of the moment, the Arch is both a stunning feature and functional in that it incorporates a square trellis which is both a perfect support for climbing plants whilst acting as a divider between different areas of the garden.

The award winning Tall Vertical Herb Stand is a great space saving solution for maximum planting in an upright planter. The slim line design comes with five individual, angled troughs for maximum exposure to sunlight for healthy plants. Ideal for a variety of herbs or cascading flowers, this sturdy, well-constructed planter makes grow your own easy.

Commenting on Zest's many awards over the years, Simon Davison, Head of Commercial Development commented **"I'm very proud of all the new products we design and, with our expanded product development team and brand new product design centre, I know we will create many more to delight the market. It is especially exciting to win awards from respected sources like Glee and GIMA and see our stylish, comfortable and convenient products judged as the best by the industry and our peers."**

Miami Swing

The Miami Swing Seat has a fixed wooden canopy and a comfortable 1.2m swing seat. The elegant, yet strong design comes with two removable shelves that easily slot onto the armrests for summertime drinks.

Relax and unwind in your garden on your own or invite your nearest and dearest as the swing is suitable for two people.

Also available in the smaller Miami Swing 3 Seater swing seat.

Accessories are for illustrative purposes only. See page 33 for optional extras.

Designed for
outdoor living...

Chepstow Arbour

Perfect for enjoying the sunshine and taking in the view, Zest's Chepstow Arbour has an airy, high arched canopy made from quality diamond trellis allowing a 360-degree panoramic aspect of the garden, all from a comfortable, tranquil seat.

The Chepstow is also a stunning garden feature, with its diamond trellis casting beautifully patterned shadows, making it a real statement piece as well as a great place to relax. It is made from sustainable FSC® timber, and comes with a 10 year guarantee against rot and so will stand the test of time.

Jasmine Folding Chair

Zest's stylish painted Jasmine Folding Chair is a design classic. Elegant and inspired by the simple contours of the popular Adirondack style, it is made from rich, durable and sustainable acacia wood. Super comfortable with a sloped seat and angled back with wide arm rests, it is perfect for relaxing and enjoying any outdoor space. Acacia wood is naturally water resistant and has natural durability, making this chair as practical as it is attractive. When not in use, the Jasmine chair simply folds away, making it easy to store until the next perfect day.

Available in Light and Dark Grey.

Gazebos

Providing the perfect setting to relax with family and friends outdoors. Cleverly designed, these gazebos offer total flexibility with a choice of trellis and panels to suit individual needs.

The Tatton Gazebo

Product Code: 00629

Size: W x D x H
2.64m x 2.64m x 2.49m

For locations where additional privacy or extra shelter is required the Tatton fits the bill. 3 solid tongue and groove panels provide a solid backdrop to the building and two balustraded sections are included for each side of the entrance. You can replace the balustrade sections at the front with any combinations of the other panels for an additional charge.

Unless otherwise stated, all products on this page are FSC® Certified

The Clifton Gazebo

Product Code: 09650

Size: W x D x H
2.64m x 2.64m x 2.49m

This beautifully designed gazebo has a solid tongue and groove panel at the back with diamond trellis either side and balustrade sections each side of the entrance. Add an additional trellis panel at the rear rather than the solid panel without cost to give 360 degree views from your gazebo.

ALTERNATIVE OPTION

The Moreton Gazebo

Product Code: 00503

Size: W x D x H
2.64m x 2.64m x 2.49m

The Moreton Gazebo with square trellis is a great feature for any garden with your favourite climbing plants entwined through the attractive pressure treated timberwork. Add an additional trellis panel at the rear rather than the solid panel without cost to give 360 degree views from your gazebo.

ALTERNATIVE OPTION

Individual design

Now's your chance to design the building that best suits your garden and your requirements. Our pressure treated range of open sided Gazebos come in a choice of 3 standard designs. However, if you don't think the exact combination of panels is right for you then choose any combination of the 3 panels shown above, add two front balustraded sections and, of course, the entrance way and we'll supply your new Gazebo to your specification. (Photos show fitted benches, these are available as optional extras).

Planning Permission (England & Wales)

If you site a building within 2m of your boundary fence then it must be under 2.5m in height. Uniquely, our gazebos are 2.49m in height and therefore don't require any planning permission unless you have a listed building or live in a conservation area. Please ask for details if you are in any doubt.

Groundwork & Installation

Any garden building requires a firm and level base and our open sided gazebos are no exception. Slabs or concrete are the best option. Installation is straightforward with instructions supplied.

Glee New Products Award Winner

Arches

Functional and elegant, Arches are an attractive feature in any outdoor space and garden, providing height to create a focal point. Zest's variety of Arches, include those with adjustable widths, giving total flexibility.

Galvanised Steel
Bucket of 200

No.			Size:
14a	Product Code:	00440	45mm

All of our timber Merchandisers are British made and sourced from sustainable forests.

MADE IN BRITAIN

Merchandisers

Modular Merchandiser Units are designed to mix and match according to the stock chosen by the retailer. They fit together to make a Zest branded area in the Garden Centre. All merchandiser and display units come complete with full colour Correx point of sale, as standard.

Front Facing Merchandiser 1 - 3

Product Code: 00396

Size: W x D x H
2.10m x 1.20m x 2.612m

A practical approach to presenting the range of trellis options from Zest enabling customers to see the full effect of the front faced trellis and lattice. The stand arrives pre-loaded with stock so can be positioned using just a pallet truck. This versatile way of stock handling, also means that should you need to re-site the stand, this can be done quickly and safely. Point of Sale, barcode labels and plastic corrugated roof all come as standard. The benefit is that the customer sees the full effect of the full face trellis and lattice.

PT

Merchandisers remain the property of Zest - See T&C's
Zest merchandisers are designed for Zest products only and should not be used to display alternative brands.

Unless otherwise stated, all products on this page are FSC® Certified

01352 752555 | sales@zestoutdoorliving.co.uk
www.zestoutdoorliving.co.uk

Side Facing Merchandiser 4 - 6

Product Code: 00602

Size: W x D x H
1.50m x 1.80m x 2.612m

Similar to the Front Facing Merchandiser, this is a great space saving option for the larger pieces of trellis that need to be kept safe and well presented. The solid, side facing merchandiser displays larger sized trellis and lattice allowing ease of access for customers.

PT

Side Facing Merchandiser 1 - 6

Product Code: 00601

Size: W x D x H
2.10m x 1.80m x 2.612m

This practical merchandiser is ideal if space is a premium within the landscape department. With 3 distinct compartments, trellis of varying sizes can be clearly displayed together. The side facing unit allows the retailer, if required, to display trellis and lattice close to the climbing plants to increase linked sales.

PT

Panel Rack Merchandiser

Product Code: 00514

Size: W x D x H
2.10m x 1.80m x 2.612m

A practical and simple approach to presenting a range of timber garden fence panels. The stand arrives pre-loaded with Zest stock and can be positioned using just a pallet truck. This versatile way of stock handling also means that should the stand need to be re-sited, this can be done quickly and safely. Full colour point of sale and barcode labels come as standard and a corrugated roof to help protect the products from the elements.

PT MADE TO ORDER WITH EXTENDED DELIVERY LEAD TIME

Post Merchandiser

Product Code: 00539

Size: W x D x H
1.694m x 1.80m x 2.612m

The robust and quality unit allows effective and safe presentation of this commodity product. Ideally based next to a Panel Rack Merchandiser, but can be used as a stand-alone display unit. Initial stock commitment is supplied pre-loaded within the stand to help prevent double handling. Top up stock can then be simply added as required.

PT

Merchandisers remain the property of Zest - See T&C's
Zest merchandisers are designed for Zest products only and should not be used to display alternative brands.

Fan Trellis Hangers For Merchandiser

Product Code: 00387

Size: W x H
0.61m x 0.61m

An innovative solution that allows the display and retail sale of Fan Trellis on the side of the Trellis Merchandiser Stands. Simply screw into place on the pressure treated post and customers can easily select their purchase by lifting the product off the hanger.

PT

Tree Stake Pods - 6 Bay & 8 Bay

Product Code	Description	Size: W x D x H
00631	6 Bay	1.20m x 0.68m x 1.40m
17997	8 Bay	1.20m x 0.68m x 1.40m

An ideal way to store and retail all wooden Zest stake products. Designed to fit within tree bays or within the main landscape department. A strong and robust pallet base means that the stand will last for years to come and is easy to move when necessary. An initial stock commitment comes pre-loaded within the stand and then top up orders can simply be added as required.

PT

Log Roll / Panel Bays - 2 Bay & 3 Bay

Product Code	Description	Size: W x D x H
00473	2 Bay	2.40m x 2.00m x 1.50m
00472	3 Bay	3.60m x 2.00m x 1.50m

The pressure treated timber bays are designed to be installed over palletised log roll, log panel and edging products. This allows the effective installation of Point of Sale boards to show the customer the size and price options. All timber is pressure treated, and is easily fitted together. The base plates go underneath a pallet to ensure that the complete unit is safe and stays in place.

PT

Fencing Accessories Merchandiser

Product Code: 00390

Size: W x D x H
0.80m x 0.60m x 1.50m

Made from galvanised steel, this merchandiser allows the retailer to effectively display the complete range of metal fencing accessories to fit Zest products. Complete with full colour point of sale board fitted as standard to the back of the merchandiser. An initial stock commitment is required, but then small top up quantities are available to keep the merchandiser looking effective and well presented.

Merchandisers remain the property of Zest - See T&C's
Zest merchandisers are designed for Zest products only and should not be used to display alternative brands.

Natural Beauty

Every Zest product is unique because each piece of timber has its own distinctive, natural features.

Zest sources all of its timber from responsibly-managed forests and everything it designs and produces meets the highest standards of sustainability. Zest ensures that all timber and timber-related products are certified to Forestry Stewardship Council (FSC®).

This is vital not only for the health of the planet, but also shows Zest's commitment to the environment and to responsible sourcing. Timber is a natural material and, as such, will fit beautifully within any outdoor space. This also means that all Zest pieces are unique because every piece of timber has its own distinctive features.

Natural and Unique...

Changes in temperature and humidity will cause expansion and contraction so Zest products need time to adjust to where the owners live. A few splits or cracks are part of the maturing process and will not affect strength or durability. Knots embedded in the wood are natural and tell the story of the tree which made them. Customers may notice variations in colour but, once out in the garden and exposed to the sun, colour and shading will even out.

Most Zest products are pressure treated which protects the timber from rot and means customers will be able to enjoy the products in their garden for many years.

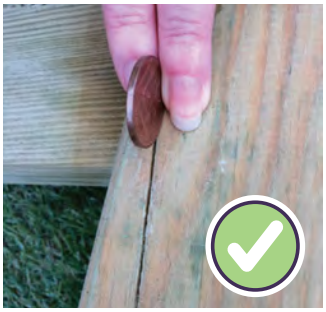

Fresh pressure treatment sometimes leads to a small amount of green-spotting on the surface of new timber as the natural salt leaves the wood. This will fade away over time and is in no way detrimental to quality or durability.

Splits and cracks occur naturally in the timber grain due to changing temperatures and humidity levels. They are not usually a cause for concern as they don't affect the strength or durability of the product. If however, a 2p coin can fit into the split or crack there may be an issue so it should be reported to Zest in writing with photographic evidence.

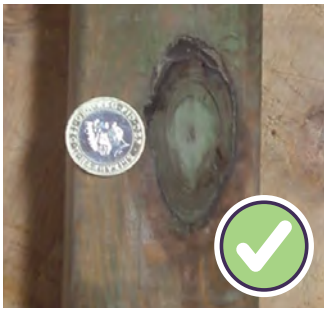

The benefits of slow grown timber

"Slow grown timber from Eastern Europe is ideal for timber garden furniture. It produces a stronger grain in the wood giving it more durability and is said to be as strong as some hard woods."

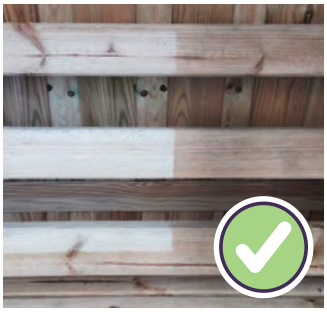

Normal splits are characteristics of timber.

Knots are characteristics of timber.

Sun Bleaching & Green Spotting are not causes for concern and they will fade over time when items are placed outdoors.

Build Your Sales with Marketing Support

Zest is here to help you build sales of Zest branded products and, to that end, is going the extra mile to deliver the necessary tools to assist you.

> **We are on a journey of continuous improvement to become the supplier of choice, delivering quality timber garden products with excellent customer service. All of our investments will help us achieve this goal.**

Steve Morgan
Managing Director of Zest

Zest's marketing support package offers a range of digital and print promotion and merchandising materials. Take advantage of the company's support package to promote Zest products, build brand awareness and generate customer engagement:

- Extensive digital image and video library (Product and Lifestyle)
- In-House Studio to make short product videos and additional product photography
- Point of Sale; A4s, Range Boards & Header Boards
- Modular Merchandiser Units to hold and display stock
- Animated Assembly 'How To' videos, to see build sequence and support printed instructions
- Customer brochures in print and digital web format

Extensive Digital Library

Providing customers with digital lifestyle product images

In the digital age, the use of carefully selected lifestyle and product images can dramatically affect product sales.

Zest has an extensive bank of high resolution images for customers to use. This will help create the most persuasive online user experience possible. High resolution images are also available to promote the Zest range in printed literature.

- Show the Zest range in aspirational settings
- Draw attention to specific product features
- Provide clear product representation
- Use images to promote sales of Zest products on social media platforms

In-House Studio

Making short product videos and media solutions available to our customers.

Images & Videos suitable for Social Media Platforms

Zest's in-house studio will not only produce 'How To' Animated Assembly videos, but it will also deliver new images and product videos giving maximum flexibility to customers.

These images and videos will help create a difference online, distinguishing businesses from their competitors, whilst ensuring images and videos enhance the visitors' user experience.

Videos and images can also be used to raise Zest product awareness with online customers using social media platforms.

Speak with a regional Zest Account Manager for more details.

> **"Having our studio in Saltney means we can deliver high impact short product videos and images that our customers can use to help improve their customers' online experience."**

Steve Morgan
Managing Director of Zest

Animated Assembly Videos

Online "How To" Videos for Product Support

Zest designs and builds the Zest range with ease of assembly in mind but understand that customers might feel reassured to see this for themselves.

That's why Zest invested in its own studio at its Saltney site, and now creates animated assembly videos for a range of its products, from arbours to cold frames to planters.

Use these videos online or, why not inspire visitors in store if you have the facility?

The videos are to be used in conjunction with the printed instruction sheets supplied with the product which are also available on the Zest website.

Lifestyle Product Information Videos
Zest also offers short lifestyle product information videos for some of the range. Contact Zest for more details.

Full Colour UV Treated Branded PoS

Branded PoS Available as an Optional Extra
Zest PoS can be personalised with Garden Centre branding, adding promotions and pricing.
Contact Zest for further details regarding options available.

Point of Sale & Range Boards

Using UV-Ray resistant ink

Zest's specialist team of in-house designers has created a new range of high impact PoS to help highlight the Zest range on sale.

Merchandise Zest products with brand-enhancing PoS to communicate price and convey features and product benefits to customers. For example:

- 10-year guarantee against rot (furniture)
- Pressure treated timber
- Flat packed for easy assembly
- Ready built (selected products)

Zest's PoS range is ideal to create a branded area for furniture and arbours or product specific promotions for its 'Grow Your Own' range, fencing or garden arches.

PoS Suitable For Use Outdoors

When exposed to the elements, PoS can quickly become faded and weather-worn. That's why the Zest PoS is printed using UV-Ray resistant ink to help protect against fading.

Customer Brochures in Digital and Print Formats

Each year the NEW Zest customer brochure is launched to coincide with the new garden trade season. Supplied free of change, the colour, quality brochure features the full range of Zest products.

In addition, the brochure focuses on the importance of sustainable forest management and the companies commitment to the environment.

Zest is proud to be an FSC® certificate holder (FSC®C114990) and secures timber from FSC® sources, where the world's forests are managed responsibly.

FOR FURTHER DETAILS OF ANY OF THE MARKETING SUPPORT PACKAGES PLEASE CONTACT THE ZEST SALES TEAM.

Every effort has been made to provide up to date factual information, but as our policy is one of continual improvement we reserve the right to modify or change specifications as necessary. No liability will be accepted for errors and omissions. All guarantees are conditional and if you are in any doubt as to the terms and conditions, please feel free to contact us. All sizes where quoted are approximate and in metric. Products have been measured to maximum exterior dimensions including roof overhang unless otherwise stated. Some specifications may vary due to availability and product improvements. Colour has been applied to some products for photographic purposes only. We take great care in the photographic accuracy of products shown in our brochure, however due to variables in both photographic and printed processes and the natural characteristics of wood, colours may not exactly match the actual products. All orders below £500 will incur a delivery charge (UK Mainland only).
