The Switch to TeamLinkt

Saskatoon Minor Hockey Association used to juggle disparate tools for registration, scheduling, and communication, work that created real challenges for Kelly Boes, Executive Director, in balancing admin duties with a seamless game experience.

Moving everything onto TeamLinkt changed that. Registration, scheduling, and communication became elegantly centralized, and Kelly points to the platform's collaborative nature and prompt issue resolution as the clearest difference from what the association used before.

"The support team is fantastic and truly collaborative. Plus, the affordability of such an innovative product is unmatched. It's been a real improvement in reducing our administrative workload, allowing us to focus on enhancing the game experience for our players. Highly recommend it!"
