📍 Karachi, Pakistan

ABOUT ME

Passionate UI/UX Designer with more than 2 years of professional experience creating user-centered digital products and experiences. Skilled at transforming complex ideas into intuitive, visually engaging interfaces. Experienced in collaborating with cross-functional teams and contributing throughout the entire design process, from user research and wireframing to prototyping and final UI implementation.

EMPLOYMENT

Associate UI/UX Designer — Tafsol Technologies (Full Time)

May 2024 – Present

As a Ui/Ux Designer at Tafsol Technologies, I've been part of the production Team, My role is there to create visually appealing and user- centered designs that align with project objectives. I have worked in diverse range of projects, including designing websites, user dashboards, application interfaces, logos, social media posts, wireframing, mockups, and prototyping.

UI/UX Designer — Canvas Digital (Internship)

Oct 2023 – Jan 2024

Design and iterate on product interfaces using Figma and Photoshop. Have completed several projects, including website designing and Social Media Post. Collaborate with engineering and product management teams to align design concepts with technical constraints and business objectives.

EDUCATION
