About this product

Our best-selling dinner plate, built for high-volume service. The coupe profile gives you a full 27 cm canvas with no wasted rim, while the glazed foot ring protects counters and stacks. Fired at 1,320 °C for a dense, chip-resistant body that survives the dish pit night after night.

Sold by the case (12 plates per case). Minimum order 2 cases, then in single cases. Typical dispatch in 5 working days from order confirmation.
