SPRINT book
optional
thesprintbook.com

bring

→

laptop

MacOS or Windows

We will be building, and presenting, actual prototypes in the workshop - time permitting. This is aggressive, but also fun. Be prepared to work / think fast.

install

→

figma

web version / x-platform - figma.com

We will be taking a team approach to prototyping in the workshop using the free version of **figma** - a web-based design & prototyping environment. If you can, take the time to register and familiarize yourself with the software. I will conduct a simple tutorial in class, but better if you have some prior minimal experience.
