SUMMARY

Product designer who takes work from Figma to production. No-code (Framer, Webflow) when it's faster, Claude Code when it isn't, and AI agents for research, build and review that I direct and check. About four years in.

EXPERIENCE

Product Designer (Contract, full-time), Alleyesonme.jobs, Luxembourg | alleyesonme.jobs
Sep 2025 - Sep 2026

- Designed and built a B2B Solutions page with a 13% form-submission conversion rate, one of 5+ production experiences shipped in Framer and Webflow with product, business and marketing teams.
- Redesigned AEOM's global navigation, the basis for the main job platform's navbar, and built it across the Framer and Webflow sites with reusable components and FR/EN/DE switching.
- Built a CMS-driven content system of 350+ pages that reached 2,700+ visitors in 30 days, using responsive design, SEO and reusable patterns.

Co-founder and UI/UX Designer, Linnea Studios | linneastudios.com
Jun 2024 - Present

- Co-designed and shipped 8+ client websites across e-commerce, media platforms, events and creator brands.
- Led UX, visual design, and implementation using Figma, Framer, Webflow, and AI-assisted development.

Freelance Product Designer & Own Products, Self-Employed
Jan 2023 - Present

- Designed a 30+ screen blockchain security web app with developer handoff docs, and a website and media kit for a football brand with 60K+ followers.
- Designed and shipped Kanji no Chikara (kanjinochikara.com), a live reference for 2,211 kanji with search, level filters, stroke-order animations and a writing mode that checks each stroke. Built the design system in Figma, directed the build in Next.js with Claude Code, deployed via GitHub and Vercel, and set up SEO and automated monthly data updates.
- Designed Fellowship HQ, a personal dashboard for supervising a team of AI agents, where each agent shows its state and irreversible actions need an extra confirm. Case study: filipenunes.design/hq
