

Welcome to Orvantaa !

Welcome to Orvantaa

Welcome to Orvantaa. You are stepping into an intelligent, interactive ecosystem designed to replace passive studying with active mastery.

Whether you are building foundational knowledge in Class 6 or preparing for rigorous Class 12 board exams, Orvantaa adapts to your unique learning pace. This platform combines the precision of artificial intelligence with structured academic methodologies to ensure you aren't just memorizing facts, but truly understanding concepts. This guide will walk you through setting up your workspace and unlocking the full potential of your new AI tutor. Use the login credentials provided by your school to access the platform.

Regards,

FOUNDER, ORVANTAA

Your Toolkit

1: The AI Tutor.

Ask Orvantaa

Your 24/7 academic companion. Ask questions, clarify complex doubts, and get step-by-step explanations tailored exactly to your syllabus and comprehension level.

2: Topic Labs & Smart Notes.

Dive deep into specific subjects. Topic Labs break down intimidating chapters into interactive, bite-sized learning experiences, accompanied by beautifully structured smart notes for easy revision.

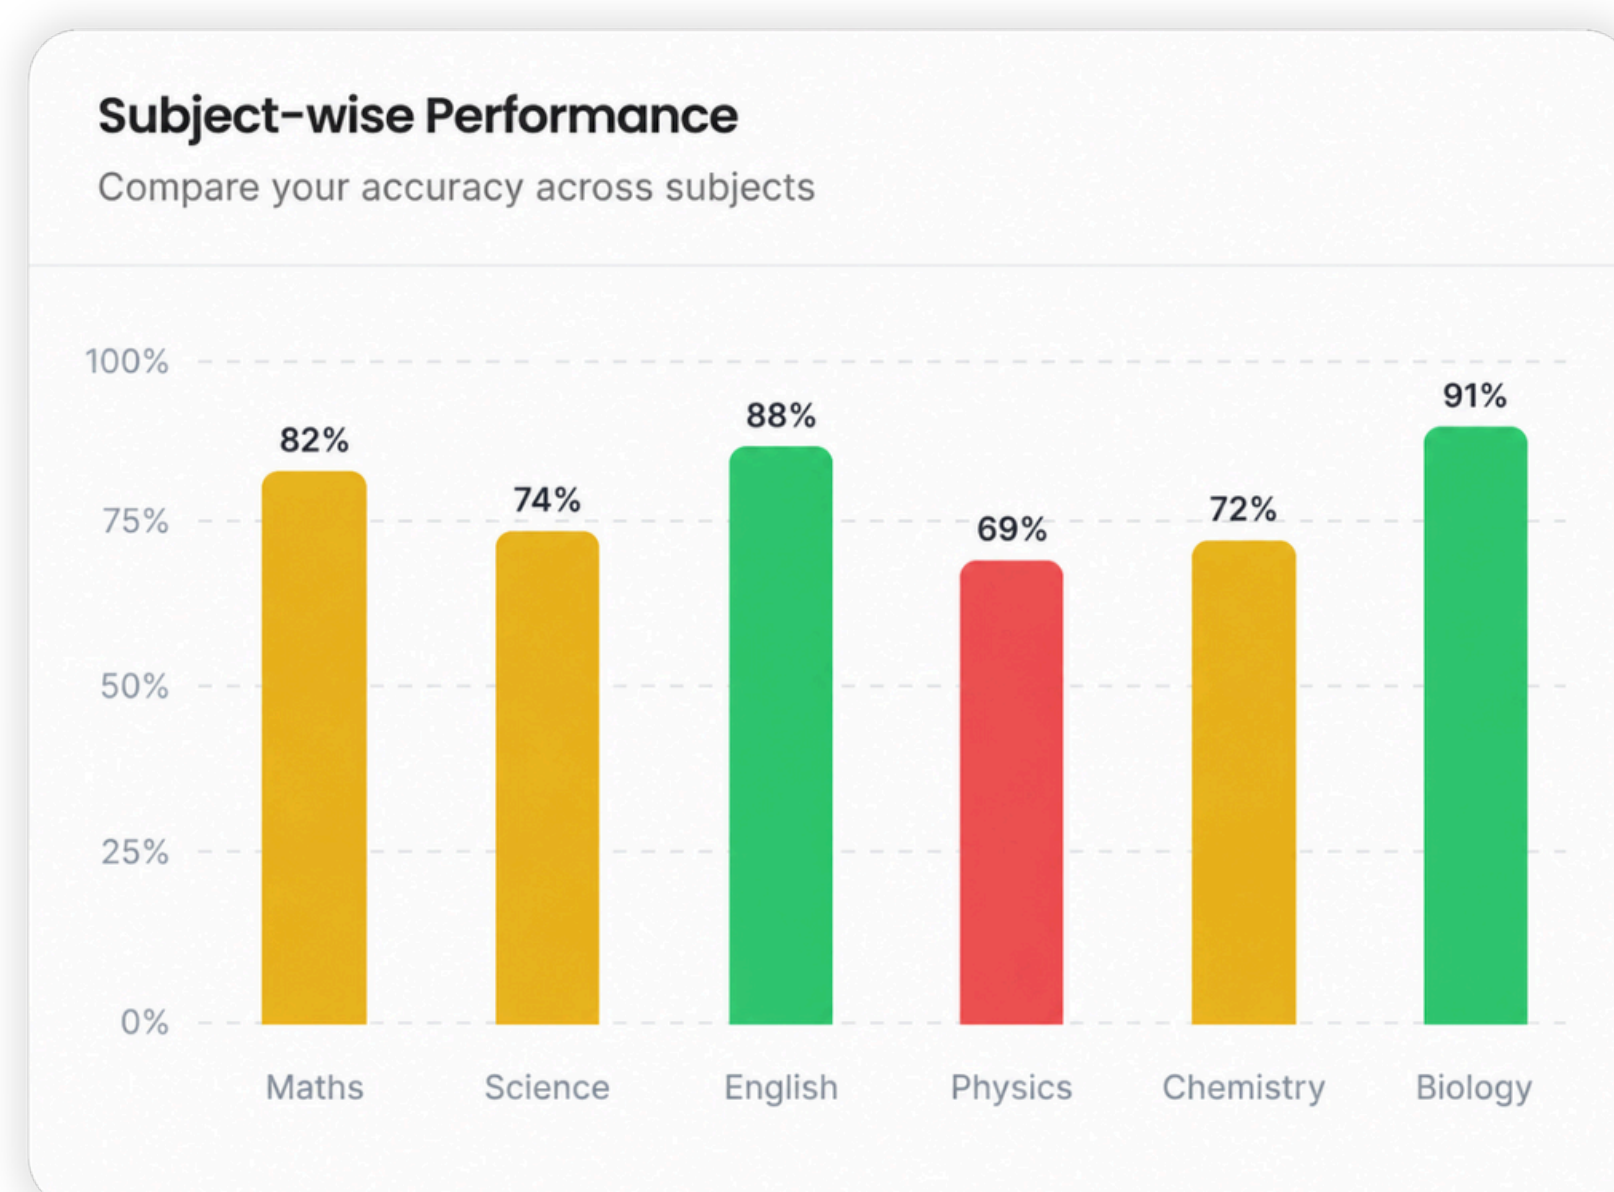

3: Interactive Quizzes

Put your knowledge to the test. Our intelligent quizzes adapt to your skill level in real-time, pushing you just enough to learn without feeling overwhelmed.

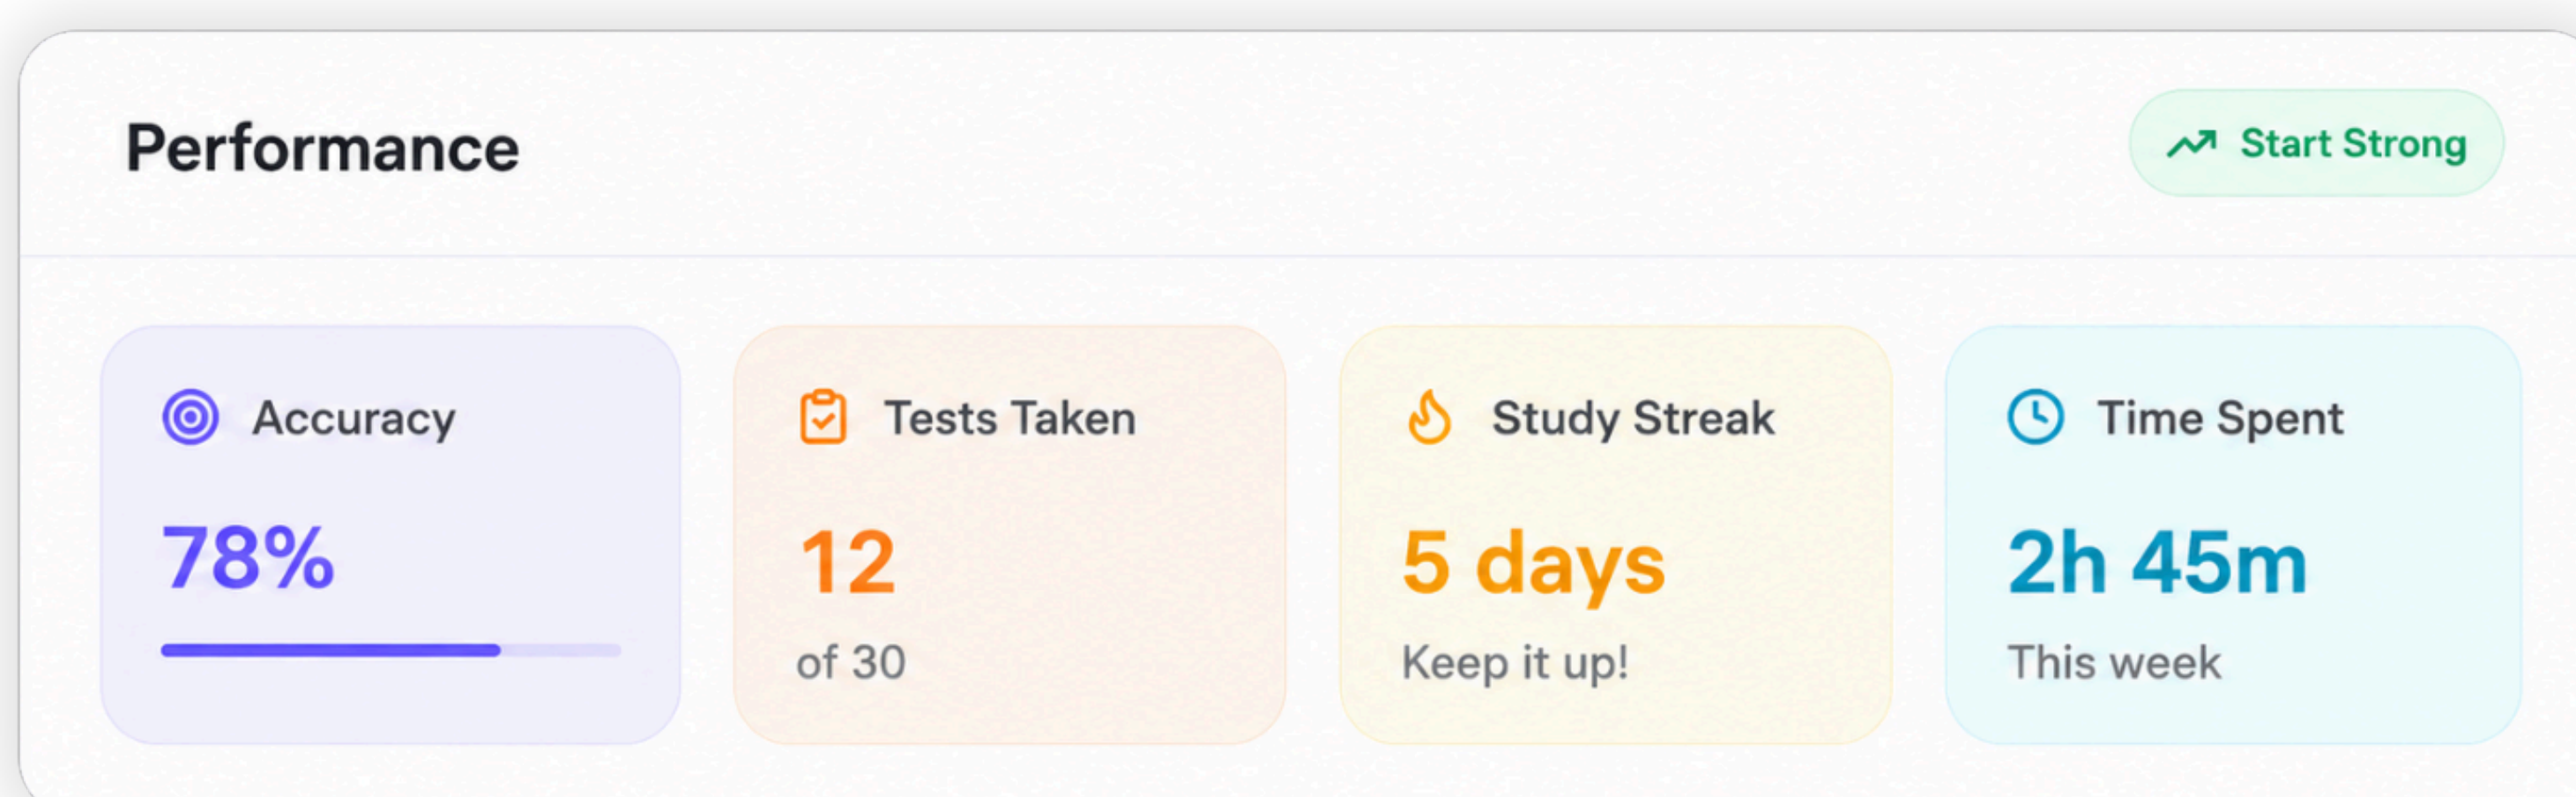

4: Performance Tracking.

Stop guessing about your progress. Orvantaa provides detailed visual analytics on your performance, identifying your weak points so you know exactly where to focus your study time.

4.1 Subject wise performance

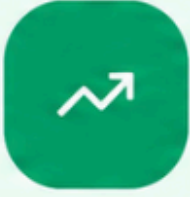

4.2 Core Performance Metrics

4.3 Topic wise performance

Performance Insights

 **STRENGTH**
Mathematics

 **GROWTH AREA**
Knowing Our Numbers

 Complete quizzes and lessons to unlock personalized performance insights.

5: Ask Better. Learn Better.

Try these prompts with the Orvantaa AI Tutor

Use clear prompts and mention your class, subject and topic to receive more relevant explanations.

“Explain this topic in simple words like I am learning it for the first time: [topic name].”

“I am a Class [class] student. Explain [topic name] from [subject/chapter] in simple language. Teach it step by step, use one easy example, and end with 3 quick revision points.”

“I am stuck on this doubt: [write doubt/question]. Explain the answer clearly in small steps. First explain the concept, then solve it, then tell me the common mistake students make.”

Best format for the prompt :

Class + Subject + Chapter + Question + Required style

6: Student Safety & Responsible AI Use

- AI Tutor is for learning support, not cheating.
- Do not share passwords or personal details.
- Cross-check answers with teachers or textbooks.
- Use AI to understand, not copy blindly.
- Ask your teacher if you are confused.

7: Common Problems & Quick Fixes

I cannot Log in
