

THE ORIGINAL SAFETEST TM SERIES

- Measures up to 10,000 RPM
- Accuracy of +/- 0.01% of Reading
- Rugged IP67 Rated Design
- Magnetic Adjustable Mounting System
- Up to 100m (328ft) Bluetooth Range
- Up to 7.5m (25ft) Laser Operating Distance

**Maximise
Safety**

**Eliminate
Live Work**

**Wireless up to
100m (328ft)**

**Purpose Built for
Heavy Industry**

The **SafeTest TM Series** enables completely wireless measurement of RPM removing technicians from the live work area while measuring the speed of fans, pumps, drill heads and other rotating machinery components.

This rugged, non-contact laser tachometer is designed to achieve fast, accurate measurements in the harshest mining environments while out of harm's way. Use the Wireless MultiTool to capture multiple RPM measurements at the same time.

Packaged in a rugged hard shell carry case, with built-in charging harness, the SafeTest TM Kit is always ready to go at a moment's notice.

"The SafeGauge products are a great addition to our tooling inventory. Tooling that removes personnel from the footprint of the machine.

The MultiTool allows for easy testing of multiple circuits at the same time. Being able to measure multiple channels at the same time significantly shortens testing duration."
