KOMETA

Introducing Kometa, a marvel of modern coffee technology and the latest star in the powdered milk range. Perfectly designed for demanding standards, the Kometa combines superior functionality with a stunning design that's sure to enhance any work environment. Whether you're a high-end hotel, a working kitchenette or a sophisticated office, the Kometa is engineered to exceed expectations.

MACHINE FEATURES

COMPACT & STRIKING DESIGN

The Kometa features soft, elegant lines that captivate the eye, housed within a compact footprint that fits seamlessly into any space. The 7-inch touchscreen interface is a gateway to a phenomenal user experience, balancing aesthetic beauty with practical functionality.

ADVANCED TECHNOLOGY

As the result of extensive research and development, the Kometa is equipped with cutting-edge features that cater to the most advanced consumer preferences. Enjoy the benefits of complete connectivity with embedded Wi-Fi/Bluetooth and an optional 4G module, integrated payment systems, and a customizable drink menu.

ENERGY EFFICIENCY

With its dedicated energy-saving mode, the Kometa is not just powerful but also eco-friendly, helping to reduce operational costs while still delivering up to 100 cups daily.

CUSTOMISABLE CAPACITY

The machine comes with a coffee bean hopper that can hold 0.6 kg, expandable to 1.1 kg. It also features options for one or two soluble hoppers for chocolate (up to 1.4 kg) and milk (up to 0.45 kg), ensuring versatility and satisfaction in every brew.
