PRODUCT DETAILS

The Tiny House trailers can also be used for transport purposes in addition to the chassis for a Tiny House.

Tiny House "Plateau" has no mudguards over the tires, there is only a small mudguard behind the tires.

The standard location of the axles is in the middle and than 20 cm to the back. The location of the axles can also be adjusted suitable to the wishes of the client. The total width of the building platform is 244 cm (the mudguards are 255 cm). Heavy support legs are an additional option.

CERTIFICATION

The trailer is fully roadworthy-certified for all European roads. A certificate of conformity which we obtain from the manufacturer in English, along with a declaration of technical details and information regarding the vehicle also supplied by Vlemmix, are both required for it to be properly registered in Poland.

TRANSPORTATION

Trailers are manufactured to individual orders, thus transportation costs are also calculated individually. The customer may also collect the trailers/ organize transportation on their own account from the Netherlands. Approximate cost of transportation on wheels is about 550–650 EUR excl. VAT

VLEMMIX
TRAILERS

Tiny House Trailers is the official distributor
of Vlemmix Aanhangwagens.
