THE PROBLEM – FOR CHILD TRANSPORT SERVICE BUSINESS

The work is important. Managing it shouldn't be complicated.

Complex operations cost time, create uncertainty, and demand unnecessary follow-up.

Operations in control

See it today. Act early. Keep every ride moving.

Scattered tools

Spreadsheets, texts, phone calls and paper checklists don't talk to each other.

Uncertainties

Last-minute changes can get lost between the office and the road.

Disconnect

Without live status, the office reacts after the problem is already visible.

Safety & compliance risk

Driver, vehicle and child records can become fragmented across systems.

Inefficiency

Optimizing routes and assigning the right vehicle manually can be inefficient and challenging.

Cash Flow

On-time invoicing and consistent cash flow can be difficult to manage.

THE ADMIN EXPERIENCE

Admin duties — before, during and after every ride.

One dashboard connects every phase of the day, for every role.

Admin | Driver | Parent | Partner

BEFORE 01

- Set up schedules, routes & driver assignments
- Review pending payments and outstanding invoices
- Confirm everyday compliance — licenses, inspections & documents

DURING 02

- Monitor Today's Overview — rides, absences, delays, cancellations
- Respond to Action Required alerts in real time
- Track live driver, vehicle & attendance status

AFTER 03

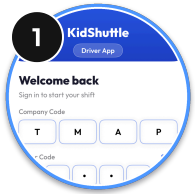

- Review completed trips & attendance records
- Reconcile payments and close out billing
- Run compliance checks & the business health snapshot

WHY KIDSHUTTLE

The platform you can trust

Seven reasons operators pick KidShuttle and stay.

All-in-One Platform

Rides, drivers, vehicles, families, and billing — one system instead of five.

Real-Time, Not Reactive

See issues the moment they happen, not after a parent calls.

Security by Design

Extra login authentication, encrypted data, secure cloud storage — all industry-standard security.

Built for Compliance

Automatic tracking and report generation — ready whenever your state requires proof.

Mobile-First for Everyone

Dedicated guided apps for drivers and parents — safer, faster, easier to use.

Built to Scale

From a single van to a multi-franchise fleet, the platform grows with you.

With **KidShuttle**, you're in safe hands - trusted to run, and built to grow your business.

REAL-WORLD SCENARIO

The 6:45 AM address change.

"A parent calls before sunrise — their child needs pickup from grandma's house today, not home. The driver's already loaded his route and is minutes from leaving the yard."

The route is in the driver's pocket
One tap. Pick up. Drop off. Update.

WITHOUT A CONNECTED SYSTEM

- ✕ Dispatcher calls the driver directly and hopes he picks up
- ✕ Driver re-checks a printed route sheet while driving
- ✕ No record of the change if something goes wrong

WITH KidShuttle

- ✓ Admin edits the stop in the Admin Dashboard in seconds
- ✓ Driver App refreshes the route automatically — no phone call needed
- ✓ Parent gets an instant confirmation notification

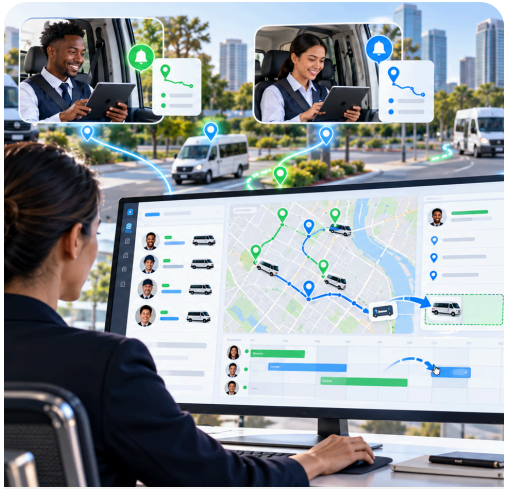

The point isn't just speed — it's confidence that the right people see the right information.

REAL-WORLD SCENARIO

The driver who didn't show.

"It's 7:10 AM — a driver calls in sick, and twelve kids are waiting on his route. The office has minutes to figure out who covers it."

One dashboard, every driver
Reassign a route in seconds — not a scramble.

WITHOUT A CONNECTED SYSTEM

- ✗ A frantic phone tree to track down a backup driver
- ✗ No visibility into which stops are already covered
- ✗ Parents start calling before anyone can explain

WITH KidShuttle

- ✓ Dispatcher reassigns the full route in one tap from the Admin Dashboard
- ✓ The backup driver gets the route and child roster instantly on the Driver App
- ✓ Parents receive a proactive delay notice before they even notice

The goal isn't a perfect day — it's a fast, calm recovery when a normal one goes sideways.

REAL-WORLD SCENARIO

Where is my child?

"It's 3:45 PM — the afternoon van is running a few minutes behind, and a parent who hasn't heard anything starts calling the office, worried."

Confidence for families
Know when the ride is coming — without the phone tag.

WITHOUT A CONNECTED SYSTEM

- ✗ Office has no way to answer without radioing the driver directly
- ✗ Phone lines stay tied up for the rest of the afternoon
- ✗ Anxious parents, frustrated staff

WITH KidShuttle

- ✓ Parent opens the Parent App and sees the live map and status instantly
- ✓ Automated pickup and drop-off alerts remove the guesswork
- ✓ The office fields zero extra calls

Visibility doesn't just save time — it protects the trust families place in you.
