EXPERIENCE

UX/UI Designer

The Stepstone Group ↗
2021 - Present

Collaborated with 4+ cross-functional teams to incorporate user-centered goals for the iOS mobile app

Successfully elevated application submissions by over 35% through listing page optimizations

Enhanced app downloads by 10% through App Store page experiments

Boosted listing views by over 20% through result list optimization

UX/UI Designer

Lmente ↗
2022 - 2023

Led the design process from inception to successful launch for iOS and Android Lmente mobile apps

Research, design, and prototyping efforts to bring the initial client vision to fruition, establishing a solid foundation for project development

Collaborated with devs to establish a design system and scalability of the app across various platforms

UX/UI Designer

Web3 Project
2021 - 2022

Web3 NFT product. Involved in defining product strategy, creation of the visual design, wireframes and landing page.

Previous Freelance Work

Freelance
2020 - 2021

Fit with Me - Website redesign. Market analysis, User flows, Interface Analysis, Accessibility.

Designed and developed a website for the local Oasis community.

Desirio - Research, User Interviews, User Tests, Eye-Tracking

SUMMARY

Product Designer creating mobile apps for large corporations and small startups. Advocate for accessibility, committed to inclusive design. Explorer of Web3. Bring a user-centric approach to projects.
