MAXIMIZE ROI

Elevate your bottomline, optimize team performance, & achieve strategic objectives!

COST-EFFECTIVE SOLUTIONS
through our proven approach to delivering AI solutions.

AVOID VENDOR LOCK-IN
with flexible solutions that adapt to your business needs.

ENHANCED DECISION-MAKING
leveraging real-time analytics from internal and external sources.

OPTIMIZED OPERATIONS AND COMPLIANCE
through AI Agents that plan, and execute tasks to perfection.

RISK MITIGATION
using predictive analytics to foresee risks.

SYSTEM INTEGRATIONS
that bridge gaps, standardize, and graph data with our accelerators, boosting interoperability.

< 6 weeks
TO DEPLOY UNERTH'S SOLUTIONS!
by utilizing our unique approach to implementing AI solutions.

OUR UNIQUE SOLUTIONS SUPERCHARGE your team by combining—

SEAMLESS INTEGRATIONS

that connect into your existing systems and processes without disruption.

CUSTOMIZABLE AI AGENTS

that work like magic to assist with or automatically perform complex tasks.

UX FOCUSED FEATURES

that empower your teams with smart, easy-to-use capabilities

supported by—

SMART ACCELERATORS

Tools that speed up deployment by bridging gaps & graphing knowledge.

ADAPTABLE, FUTURE-READY FRAMEWORK

Custom pieces that are “ready-to-replace” once it reaches required maturity levels

FLEXIBLE AI MODEL SELECTION

Combination of high-accuracy, low cost models that don't break the bank

Introduction

In recent years, the automotive industry has experienced a significant transformation with the rise of electric vehicles (EVs). Once considered a niche market, EVs have now become mainstream, reshaping the way we think about transportation and sustainability.

REVOLUTIONIZING DATA INTEGRATION:

Unerth's Unified Search Application for Kolkata Police

THE CHALLENGE

Kolkata Police faced challenges with its data spread across isolated databases. This separation **hindered effective investigation and risked wasting years of data collection.**

Originally, data was confined to 6 distinct databases, each limited to specific queries without cross-table interactions. This led to **underutilized data** and inefficient investigative processes.

250+ GB

FRAGMENTED DATA

6 DISPARATE DATABASES

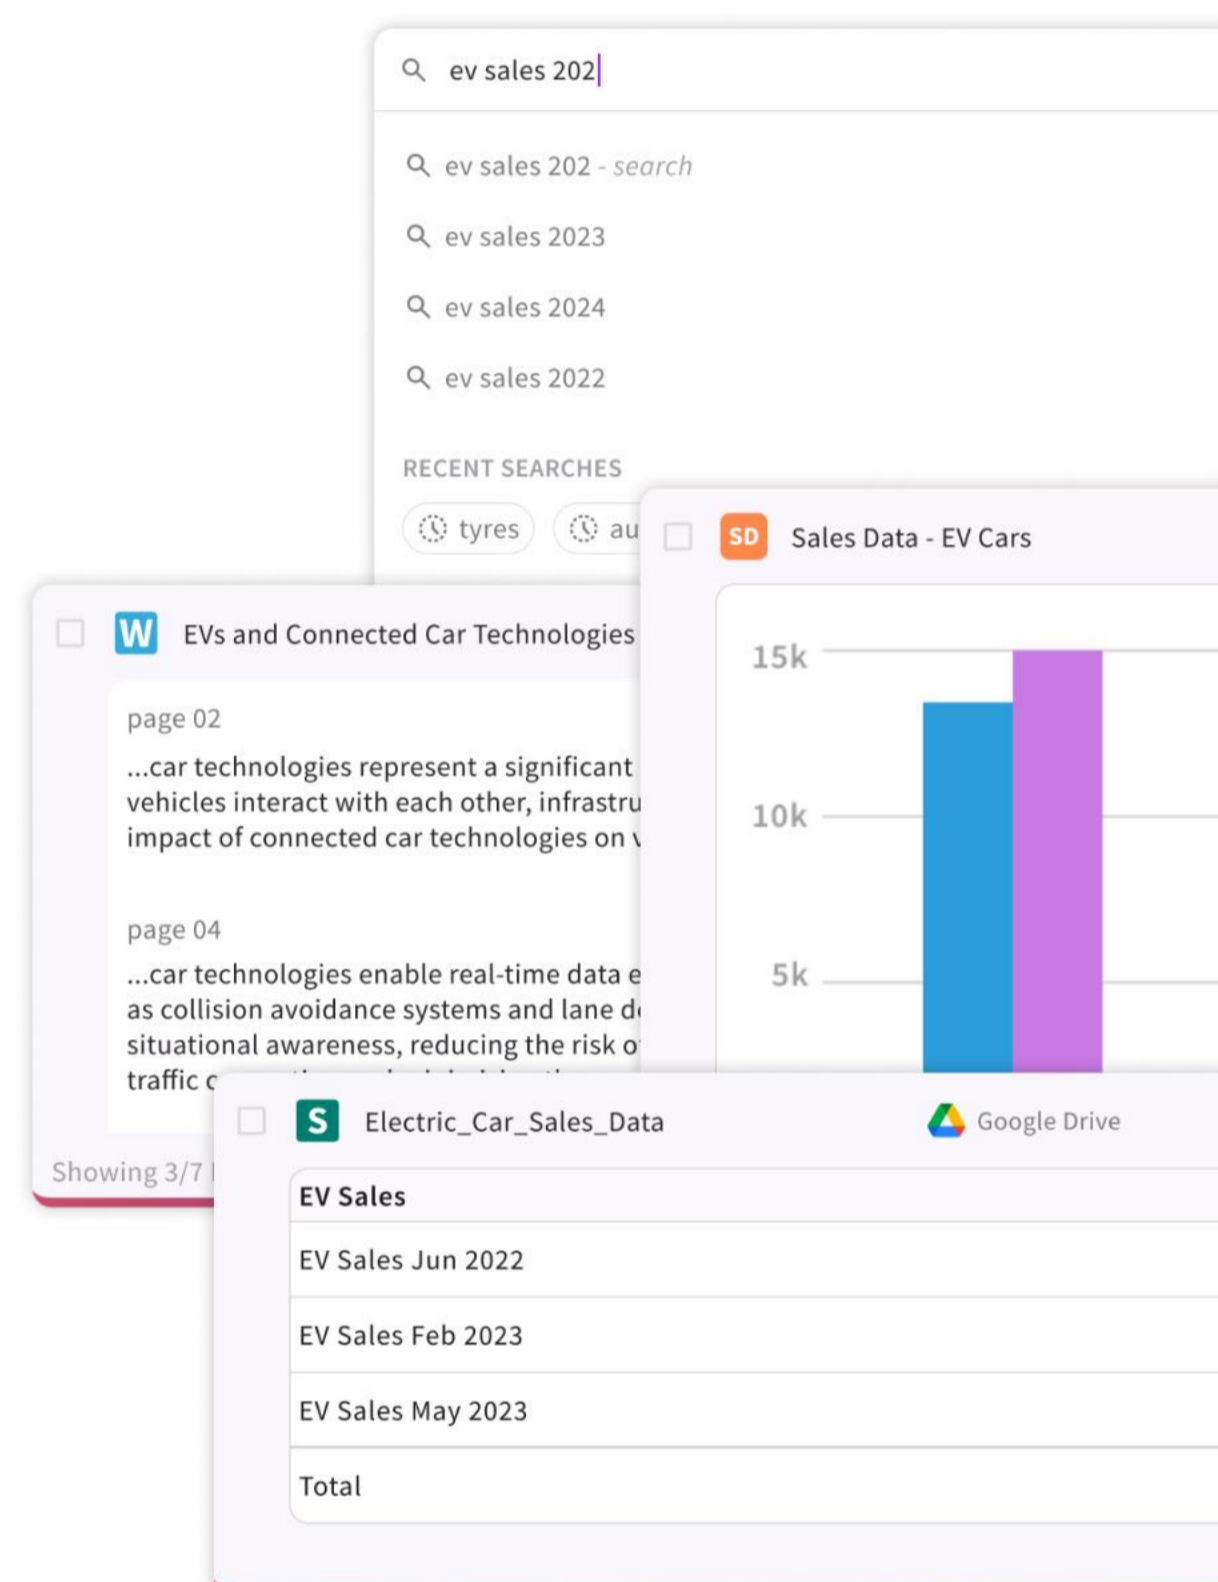

0 COMMON IDENTIFIERS

OUR SOLUTION

- Integrated the data sources and consolidated data into one searchable framework.
- Utilized our AI Accelerators (Enricher and Metadata Generator) to harmonize and enrich the existing data.
- Deployed AI Agents to detect patterns, establish data relationships, and index data for quick retrieval.
- Provided **Unified Search**, a web app for natural language searches, eliminating the need for individual database queries.

KEY BENEFITS

- ✔ Enhanced Investigative Efficiency
- ✔ Optimized Data Utilization
- ✔ Scalable and Compliant

FOR DEPLOYMENT

UNERTH TRANSFORMED CHAOTIC DATA INTO A STRATEGIC ASSET.

"It is great to see that all the efforts in collecting this data over the years did not go to waste. We were ready to give up on these databases when Unerth's deployment of their search solution completely changed our investigative process—and they made it happen in a month. We look forward to more solutions from Unerth that'll make our officers' lives easier."

—DCP of STF, Kolkata Police

AUTOMATING MARKET INTELLIGENCE

Overcoming Fluence's Data Overwhelm Challenge

THE CHALLENGE

Fluence, a leader in global energy solutions, was overwhelmed by the complexity of integrating data from multiple sources for strategic market intelligence.

The Market Intelligence team faced difficulties with delayed insights, fragmented data sources, and the constant pressure to deliver actionable intelligence swiftly.

OUR SOLUTION

- Integrated all designated sources and configured them to automatically gather data, significantly reducing the need for manual collection.
- Utilized AI Agents (Insight Generator) to curate and synthesize information, transforming scattered data into coherent and strategic insights.
- Provided **Smart Intelligence Hub**, a web app for users to easily add sources, set parameters, and receive real-time notifications and insights, keeping them updated with evolving market conditions.

KEY BENEFITS

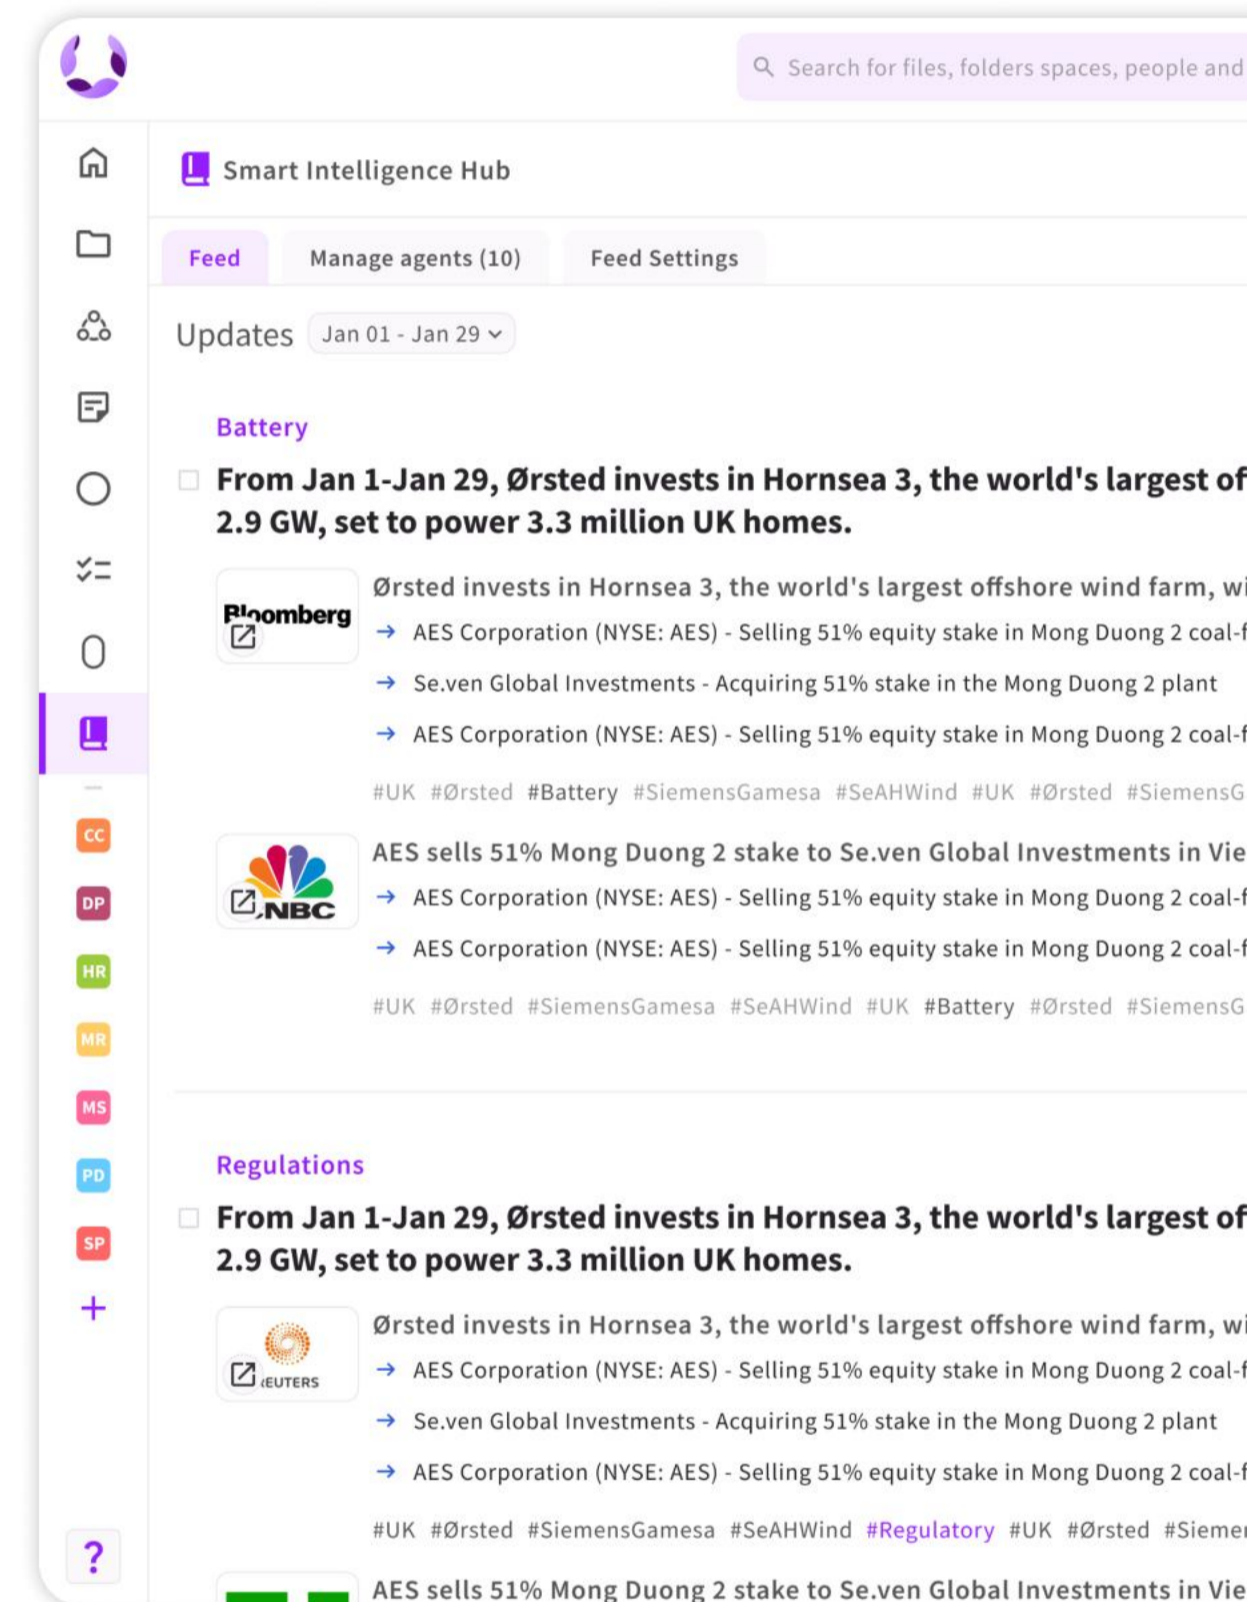

- ✓ Enhanced Decision-Making Speed
- ✓ Increased Operational Efficiency
- ✓ Scalable and Configurable

UNERTH STREAMLINED INSIGHTS, TRANSFORMING DATA OVERLOAD INTO STRATEGIC ADVANTAGE.

"Unerth's solution revolutionized our market intelligence process. What used to be a tedious, month-long endeavor is now a streamlined, highly efficient process that delivers richer, more actionable insights much faster."

—Emily, Market Intelligence Analyst at Fluence

OVERCOMING THE COMPLEXITY OF Document Compliance and Collaboration

AI Doc Authoring redefines how organizations handle complex document workflows, ensuring compliance and enabling real-time collaboration. By leveraging AI-driven technologies, our solutions transform document management into a streamlined, efficient process tailored for high-stake environments like pharmaceuticals and clinical research.

Key Implementations Include:

- **AI-Enhanced Document Blueprints:** Configured to automatically structure and manage documents according to strict industry and internal standards, minimizing errors and ensuring compliance.
- **Dynamic Collaboration Tools:** Real-time collaboration is facilitated through advanced document management platforms, allowing multiple stakeholders to work simultaneously with full version control and audit trails.
- **Comprehensive Format and Compliance Management:** Supports a wide array of document formats and maintains rigorous compliance standards, critical for global operations and submissions.

FOR DEPLOYMENT

The screenshot displays a document management interface. The main document content is titled "Administrative Information and Prescribing Information" and includes a table of contents and a section for "1.2 Application Form". A callout box titled "Errors Detected" lists three issues: "Fomr" instead of "Form", "esential" instead of "essential", and an incorrect application number "NDA-1234567" instead of "NDA-123456". Below the text is a line chart showing data from 2022 Q4 to 2024 Q4. The left sidebar shows an "Outline" of the document structure, and the right sidebar shows "Section Properties" with a list of users and their roles.

Year/Quarter	Value
2022 Q4	17.5K
2023 Q1	20K
2023 Q2	22K
2023 Q3	20K
2023 Q4	18.5K
2024 Q1	23K
2024 Q2	25K
2024 Q3	26K
2024 Q4	27K

FEATURES BUILT USING this approach

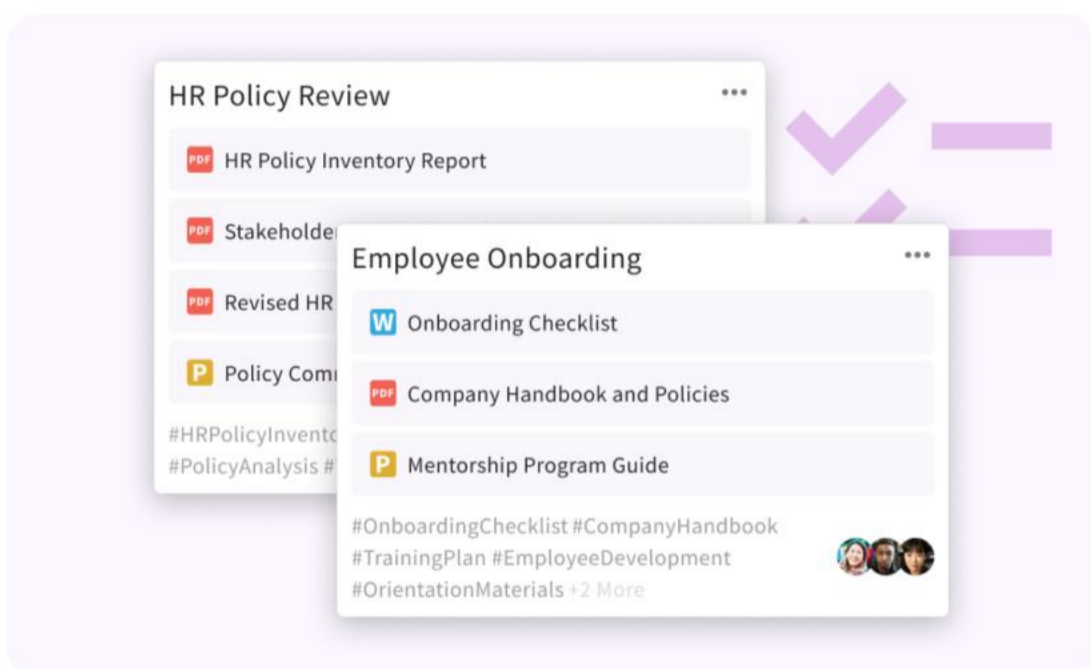

AI CHAT

Intelligent Interactions at your fingertips. AI Chat delivers precise, context-aware responses instantly, enhancing decision-making.

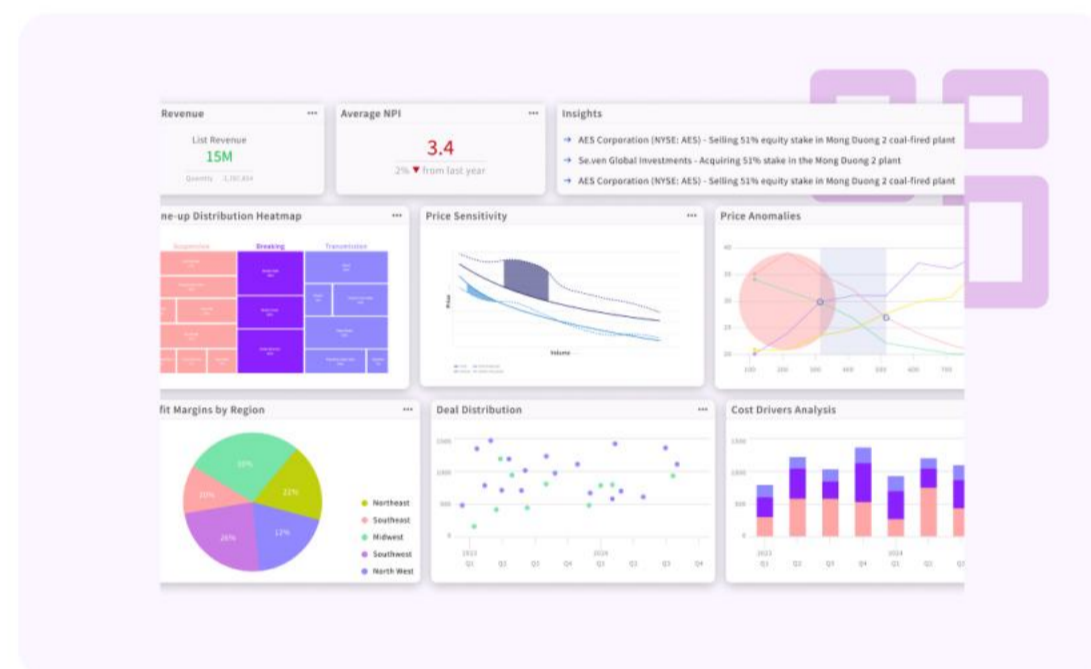

SMART INTELLIGENCE HUB

Leverage external and internal insights with Unerth's SIH—your gateway to data-driven decisions powered by web crawling, classification, and summarization.

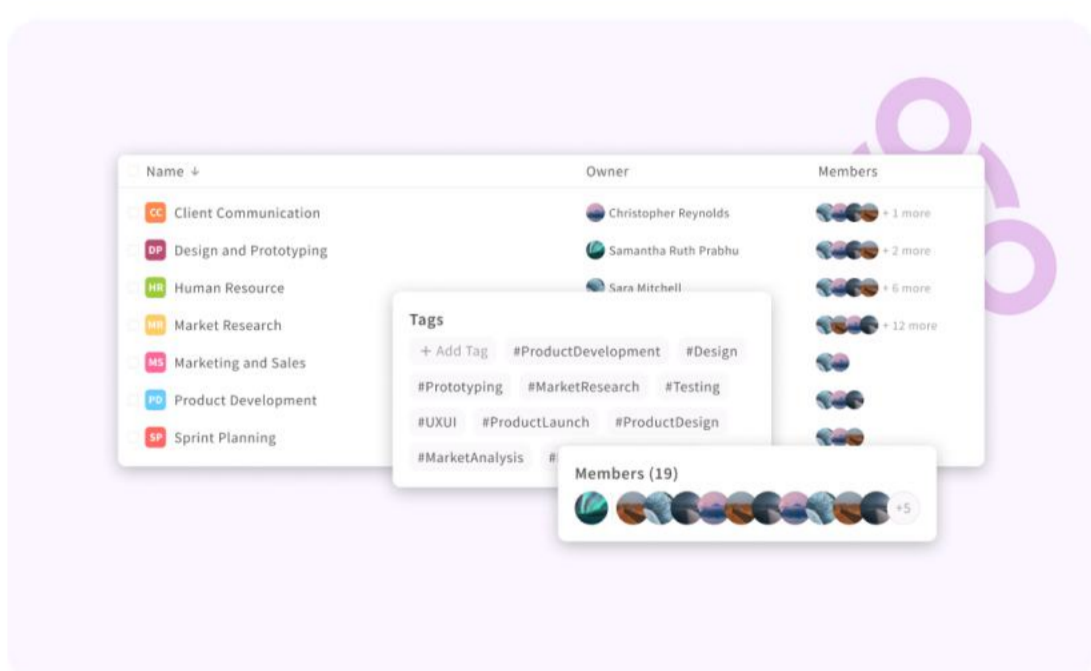

ADVANCED TASKLISTS

Transform simple prompts into continuously evolving, role specific tasks and timelines that streamline management and learning.

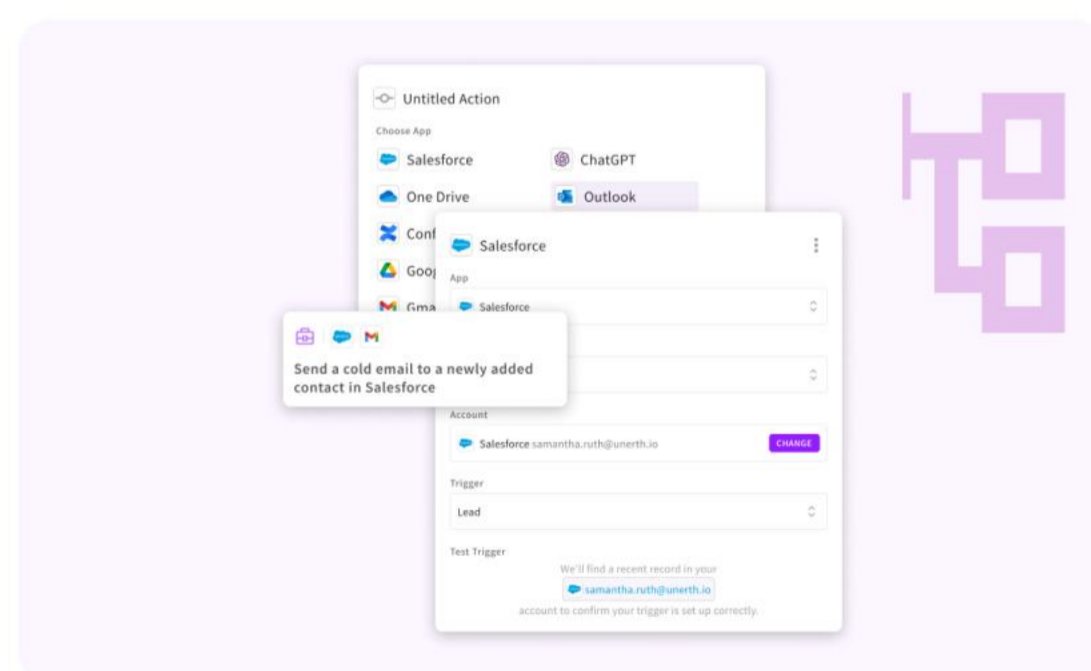

CODE-FREE CUSTOM DASHBOARDS

Create detailed, customized dashboards instantly, no coding required. Accessibility meets powerful data analysis.

DYNAMIC WORKSPACES

Auto-organized Dynamic Workspaces enhance collaboration and productivity, securely integrating team resources under a unified platform.

ADAPTIVE FLOW AUTOMATOR

Optimize connectivity and automation across your enterprise with Unerth's Adaptive Flow Automator—seamlessly linking disparate systems and automating routines to enhance efficiency without overspending.

BESPOKE SOLUTIONS

that fulfill end-to-end needs of your team and enterprise

	Business Functions	Roles
INSIGHT GENERATOR Extract essential insights from extensive clinical and operational data using natural language.	Clinical Research Business Intelligence	Data Scientists Clinical Researchers
FINANCIAL PLANNING & ANALYSIS Utilize AI for comprehensive financial analysis and strategic planning across multiple file systems and databases.	Finance Strategic Planning	Financial Analysts Strategic Planners
CUSTOMER SERVICE Create and deploy internal and external facing chatbots for customer service applications with configured knowledge sources.	Customer Service Patient Relations	Customer Support Agents Patient Outreach Coordinators
CONTENT & LANGUAGE Aids in content creation across written and visual mediums with flexibility for tone, brand voice, and guidelines.	Marketing Compliance	Content Managers Regulatory Affairs Specialists
