Cancellation Disclosure

The cancellation of a financed vehicle service contract will not lower your monthly vehicle payment with your lender. The unearned contract purchase price will be refunded calculated on a pro rata basis and will be equal to the lesser amount produced using either the number of months this contract was in force or the number of miles, in thousands of miles or portion thereof, your vehicle was driven prior to cancellation, less an administration fee as stated in your contract. If there is a lien or outstanding credit obligation against this contract, the lienholder or creditor will be named as a joint payee of the refund. By canceling your mechanical breakdown vehicle service contract, all mechanical repairs will be your responsibility and no other benefits accorded under the service contract will be available.

By signing below, I/we have read and fully understand the cancellation disclosure statements as outlined and the cancellation will be processed as stated above. I/we further understand that from this date forward, no benefits afforded under the coverage being canceled will be provided.

All requests MUST be received by EGV Companies, Inc., within 30 days of cancellation date indicated above.
