Innovative and detail-oriented Industrial Design soon to be Graduate with a proven ability to transform ideas into practical, user-centred solutions. Skilled at developing concepts, producing prototypes, and applying CAD tools to create functional and visually compelling designs. Experienced through industry placements and hands-on projects, with a strong understanding of materials, manufacturing processes, and user research. Combining creativity, technical expertise, and problem-solving to deliver thoughtful, high-quality design outcomes that meet both client needs and real-world requirements.

EXPERIENCE

Bachelor of Industrial Design

Griffith University - Feb 2023 - Present (ending May 2026)

- Awarded the 2025 Emerging Industry Award in recognition of outstanding performance during industry placement, demonstrating a high standard of professionalism, innovation, and practical design application.
- Developed strong concept development and problem-solving skills, applying user-focused design thinking methodologies to generate innovative, functional, and commercially viable solutions.
- Conducted in-depth user research and analysis, translating insights into clear design strategies, ensuring outcomes are aligned with user needs, usability, and real-world contexts.
- Demonstrated proficiency in industry-standard CAD and design software, including SolidWorks, Fusion 360, Keyshot, SimpleWare, and Rhino, to produce high-quality 3D models, visualisations, and technical documentation.
- Built a broad understanding of materials and manufacturing processes, enabling informed design decisions that consider production feasibility, cost-efficiency, and sustainability.

Operations Specialist

Apple Robina - May 2022 - Present

- Delivered exceptional customer experiences by leveraging strong communication and interpersonal skills to understand needs and provide tailored solutions.
- Collaborated within a fast-paced team environment, strengthening teamwork and coordination to meet operational and customer service goals.
- Applied effective problem-solving skills to resolve customer issues efficiently, maintaining high levels of satisfaction and brand loyalty.

Work Integrated Internship

Fluxwood Lighting - July 2025 - November 2025

- Assisted in the design and development of bespoke lighting and furniture, translating client requirements into functional and visually refined design solutions.
- Produced detailed CAD models and technical drawings to communicate design intent and support accurate manufacturing.
- Contributed to prototyping and iterative testing, refining designs based on performance, usability, and client feedback.

Patrolling Member

Miami Beach SLSC - December 2009 - Present

- Ensured public safety by monitoring beach conditions and responding to incidents, applying rescue skills and first aid when required.
- Demonstrated strong teamwork, communication, and decision-making under pressure, coordinating with patrol members to manage risks and prevent emergencies.

SKILLS

- CAD Modelling (SolidWorks, Fusion 360, Rhino)
- Rendering & Visualisation (KeyShot)
- Prototyping & Model Making
- Materials & Manufacturing Knowledge
- User-Centred Design & Research
- Communication & Stakeholder Engagement
- Problem Solving
- Time Management & Prioritisation
- Microsoft Office (Excel, PowerPoint)

EDUCATION

Bachelor of Industrial Design - Griffith University Feb 2023 - Ending May 2026

Diploma of Business - Prestige Service Training - 2019 - 2020

Silver medallion - Surf Live Saving Queensland - 2022
