

REA PER

REAPER

FEDERAL

REAPER IS AUTONOMOUS OFFENSIVE AI FOR THE AGENCIES, COMBATANT COMMANDS, AND DEFENSE INDUSTRIAL BASE PARTNERS OPERATING IN THE FIFTH DOMAIN. ONE PLATFORM CARRIES THE FULL MISSION: PROSECUTING ENEMY ASSETS, PRESSURE TESTING FRIENDLY ENVIRONMENTS BEFORE AN ADVERSARY FINDS THE GAP, AND RUNNING THE ASSURANCE FIGHT WITH STIG AND NIST 800-53 ASSESSMENTS, TRUE-POSITIVE VALIDATION OF 3PAO SAR FINDINGS, AND POA&MS DRAFTED IN YOUR OWN HOUSE STYLE. THE ENTIRE PLATFORM, THE AI MODEL INCLUDED, INSTALLS INSIDE YOUR OWN BOUNDARY, ON-PREMISES, AIR-GAPPED, OR IN YOUR OWN CLOUD FOR FULL AI AND DATA SOVEREIGNTY. THE MISSION OWNS THE TERRAIN, AND THE VENDOR DOES NOT.

V1 PREDATOR

Continuous Offensive Pressure	Holds pressure in the gap between assessments. Ground an adversary already operates in.	Sovereign by Design	Full platform inside your boundary. Findings and models never cross the wire.
Expeditionary by Design	Private cloud, on-prem, disconnected, austere. On-site and in-theater.	Holds the Line to Authorization	STIG and NIST 800-53, 3PAO SAR validation, POA&Ms in your own house style.
Hunts the Shadow Attack Surface	Unsanctioned models, undocumented APIs. Ground truth to the defender first.	Sharper Every Objective	Reads back its own chain of thought, corrects in stride. No retraining cycle.
Unseen by Design	Maneuvers covertly, holds a low signature. Sets the tempo in the fifth domain.	The Mission Owns the Terrain	Operator authority, commander's intent. The vendor owns nothing.
No Training on Customer Data	Your data never trains our models. Ever.	Non-Kinetic Effects on Order	Assumes control of the target, captures adversary documents, delivers the effect.
