

Non-Slip coasters, doilies, tray liners, tray mats, & ramekins

Prestige's Non-Slip products are made with a proprietary Non-slip material that makes F&B service Safer, Smarter, and Greener. We save you money because our Non-Slip items prevent the slips and spills that cause lost food, drinks, and expensive stemware. When spills do occur, they can be easily cleaned up because our solutions are also Non-Porous and don't absorb water or grease. They are also made with up to 80% recycled materials in an Eco-friendly factory that is run using solar power. Consider Prestige to be your insurance against disruptions, during F&B service.

Non Slip to Prevent Spills

Easy to wipe clean

Reduces cleaning costs

Insurance against losses

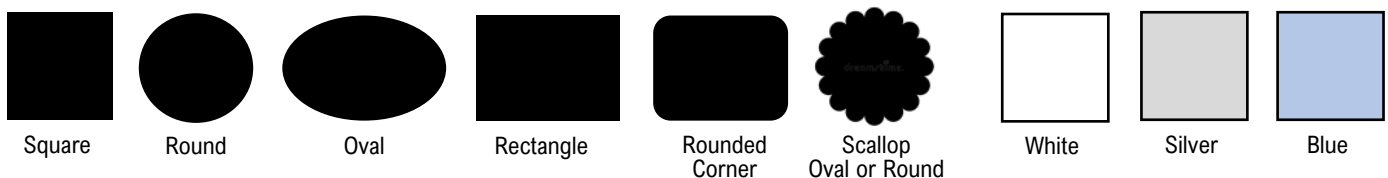

Trays are kept clean

Shapes, Sizes and Colors

Prestige's Non-Skid products are designed for airlines, banquets, bars, country clubs, cruise ships, hotels, railways, resorts, and restaurants. Our oval banquet tray mats are fantastic for larger sized trays that are used at large events as they are far more economical to use than linen napkins. We can provide products from 2" (5cm) to 23.5" (60cm) in width at any length. Our most popular shapes and sizes are featured on this and the other side of this document.
