Scenario Spotlight

The Scenario
An asset-rich borrower needed access to capital for lifestyle and transition purposes but did not meet traditional servicing requirements. The borrower intended to sell their property in the future but did not want pressure to transact immediately.

The Assetline Solution
Assetline provided a no income reliance equity release solution secured against the borrower's property, with interest capitalised over the loan term and no monthly repayments required. This allowed the borrower to access liquidity immediately while maintaining flexibility around the eventual property sale.

Loan Amount: \$1.2m | LVR: 60% | Loan Term: 24 months

- No income reliance
- No monthly repayments
- Capitalised interest
- Future sale exit strategy
- Flexible timing around property sale
