

Get your inventory data into the app — 4 easy ways

Import Data

BEST FOR BULK

Upload your existing CSV or Excel file.

- Go to **Inventory** tab
- Click **"Import"**
- Select your CSV or Excel file
- The app validates & imports instantly

✔ Supports 60+ ERP formats (SAP, Oracle, Microsoft Dynamics, etc.)

Load Sample Data

TEST THE APP

Load 15 sample items to explore how the app works.

- Go to **Inventory** tab
- Click **"Load Sample Data"**
- 15 sample items load instantly
- Run analysis and see the full experience

✔ Perfect for first-time users, demos & testing

Manual Entry

ONE AT A TIME

Add items individually with full control.

- Go to **Inventory** tab
- Click **"Manual Entry"**
- Fill in SKU, Name, Price, Stock, Demand History
- Click **"Add Item"**

✔ Great for quick adds, corrections, or testing one item

Create Template

PREPARE DATA

Download a template, fill it in, then import.

- Go to **Inventory** tab
- Click **"Template"**
- Choose your format:
 - Excel** (.xlsx) — best for complex data
 - CSV** (.csv) — best for universal compatibility
- Fill in your data, save, and use **"Import Data"**

✔ Shows exactly which columns are required

📄 Sample Data Format — Required & Optional Columns

⚡ 12 months demand history recommended for best accuracy

Column	Description	Required	Example
SKU	Unique item identifier	• Required	LAPTOP001
Name	Item description	• Required	Dell XPS 15 Laptop
Unit Price	Cost or selling price	• Required	1299.99
Current Stock	Quantity on hand	• Required	50
Demand History	3-12 monthly values (one per column)	• Required	15 16 14 15 17 16
Lead Time	Supplier lead time (days)	○ Optional	5
Category	Product category	○ Optional	Electronics
Sub-Category	Product sub-category	○ Optional	Laptops
Warehouse	Storage location	○ Optional	Main Warehouse
Demand Type	Sales, Consumption, Orders, etc.	○ Optional	Sales
Unit of Measure	EA, PCS, KG, L, M, etc.	○ Optional	EA

🕒 **Lead Time** is optional but **required** for advanced features: Safety Stock, Reorder Point, and Stock Status calculations.

Your data never leaves our computer. All calculations happen locally in your browser.

Tip: Download the template from the app, fill in your data, and import it back. The first row shows column headers — your data starts from row 2.

Headers from 60+ ERP systems are automatically detected and mapped

SKU	Name	Unit Price	Current Stock	Lead Time	Month 1	Month 2	Month 3	Month 4	Month 5	Month 6
LAPTOP001	Dell XPS 15 Laptop	1299.99	50	5	15	16	14	15	17	16
MONITOR002	Samsung 27" Monitor	349.50	120	4	22	25	20	23	24	21
KEYBOARD003	Logitech MX Keys	99.99	200	3	30	28	32	29	31	27
MOUSE004	Logitech MX Master 3	79.99	150	2	18	20	17	19	21	18
DESK005	Standing Desk Pro	599.00	35	7	8	10	7	9	11	8
