*Open Work Visa*

### WORK

**UX Designer** (Jan 2025 - Present)

*We4U, Remote*

- Designing a mobile app for organising help and support in difficult periods.
- Conducting UX research through user interviews, contextual inquiry and open-ended surveys.

**UX Designer** (Aug 2024 - Present)

*Youloveit, Auckland*

- Leading UX research to enhance the UX of a fitness workout app, enhancing its core functionalities of workout tracking and custom routine creation.
- Designed a MVP version of the iOS app that is live on the app store for beta testing.

**UX Designer** (Nov 2023 - Aug 2024)

*Stratus, Auckland*

- Developed a fully functioning and accessible Wix Studio site to communicate the business services, functions and contact points.
- Designed a comprehensive style guide and created an accessibility statement and report for the website.

**Associate Engineer - UX** (Jan 2022 - Apr 2023)

*Virtusa, Colombo*

- Orchestrated the comprehensive redesign of an internal telecom SaaS dashboard, implementing strategic improvements to the information architecture.
- Worked with 20+ stakeholders, software engineers, and product managers to identify and deliver user experience improvements to features.
