

PATIENT CHECKLIST

What to Bring to Your Eye Exam

A little preparation helps Dr. Ngoddy give you the most thorough, personalized care. Here is everything to have on hand for your visit.

**Your insurance card and identification**

Have these ready to confirm your benefits.

**Current glasses and contact lenses**

Bring what you wear now so we can check your current prescription.

**A list of your medications**

Some medications affect your eyes, so a quick list helps.

**Your insurance card**

Plus your FSA or HSA card if you plan to use it.

**Questions or symptoms to discuss**

Jot down anything you have noticed so nothing gets missed.

**Sunglasses for after**

Your eyes may be dilated, and sunglasses make the drive home easier.

GOOD TO KNOW

Not sure if we take your insurance? Call us at (404) 460-6163 and we will check for you before your visit.
