

MULTIPLY ENROLLMENT

Make every touchpoint an *enrollment opportunity* from source to schedule.

Trially Connect patient engagement agent, Margo, screens candidates across studies, engages them across channels, and books qualified patients directly into your calendar.

TRially CONNECT FROM SOURCE TO SCHEDULE

CANDIDATES FROM ANYWHERE...

Clinical practice

- Practice patient lists
- EHR-derived cohorts
- Physician & staff referrals

Ads or partners

- Meta & digital ads
- Referral partners
- Existing lead lists
- Trially-sourced ads

Trially Match
 Automated EHR chart review and discovery for enriched campaigns

...ENGAGE WITH MARGO

Margo

- Multi-study screening
- Multi-channel outreach
- Nurture interest in research
- Re-engage candidates
- Book appts with site team

...AND YOUR TEAM CONFIRMS ELIGIBILITY

TO YOUR RESEARCH TEAM

A pre-screened candidate, appointment booked.

- Full record of each candidates' outreach journey
- A growing database of research-interested patients
- Booked directly in site calendar or flagged to teams for follow-up.

KEY BENEFITS

01 Real-time oversight Every site, candidate, and appointment across the portfolio.	02 Diverse populations Community practices and groups your current sites cannot reach.	03 Faster randomizations More qualified candidates per dollar delivers measurable ROI for clinical operations.

CASE STUDY

How a short-staffed physician group booked 27 qualified appointments in one week.

Two randomizations in week one took them from one study to six.

27

qualified appointments booked in week one

2

pre-screened patients randomized in week one
