Packaging	60kg jute bags, GrainPro/vacuum liner; 1–2t supersacks available
Certifications	SCA Q-grading, Rainforest Alliance, Fairtrade, Organic (limited)
Typical Export Markets	EU, USA, Japan, South Korea

OVERVIEW

Kenya AA is graded by bean size, not simply cupped for quality — beans are retained on a 17/18 screen (roughly 7.2mm and up) and come from smallholder-dominated wet mills that fully wash and sun-dry the cherry before delivery. We source direct from factory-level lots in Kirinyaga, Nyeri, and Kiambu, so every shipment traces back to a single cooperative or estate.

Pricing is available on request and confirmed against current availability and order quantity. Request a quote for this product at riftsoil.com.
