INNOVATION IN CARPET AND FLOOR CARE

EDIC SINCE 1975

Our company was founded in 1975 with the goal of designing and developing the most innovative, productive, and durable carpet care equipment and cleaning systems on the market.

That vision holds true today as EDIC continues to expand with new product lines, patented innovations, accessories, and the support of a knowledgeable staff focused first and foremost on customer service and support.

We thank you for your interest in our products and look forward to a successful new or continuing business relationship with you.

ENDEAVOR (Patents Pending)

No matter the surface type or location, it can be easily reached, cleaned, and restored by the Endeavor multi-surface cleaning system from EDIC.

Finally, there is one compact and powerful solution for heated carpet & upholstery cleaning, hard surface restoration, and touch-free restroom cleaning.

With a unique upright, ergonomic design for easy transport, durable construction, and user-friendly operating features, the Endeavor is the perfect cleaning system tailored to fit each unique cleaning process.

Productivity is vital in today's competitive world, and the Endeavor provides your facility with the ultimate cleaning tool to reach your maintenance goals quickly and effectively.

FEATURES:

- One machine, three restorative cleaning functions
- In-line heat and adjustable cleaning pressure: provides cleaning power and versatility for upholstery, carpet and hard surface cleaning (heat for carpet cleaning only)
- Powerful 8.4" Infinity Vacuum: quick water recovery and even quicker dry times
- Auto-fill/Auto-dump: uninterrupted cleaning improves productivity
- Ergonomic dolly style design, large rear wheels, handle casters, built-in skid rails, wand and tool storage: easy to maneuver, load, unload and transport by one person
- Fan cooled motor compartment: provides longevity to electrical motors and critical components
- Circuit locator: prevents blown fuses and tripped breakers
- Large recovery tank and solution tank opening: easy access for cleaning the recovery tank and filling the solution tank
- Convenient front mounted controls on top: no stooping or bending to operate

One Machine Provides Many Restorative Cleaning Functions

CR2 - COMPLETE RESTROOM RESTORATION

TOUCH-FREE
RESTROOM CLEANING SYSTEM

Maintaining a clean and healthy restroom environment at any public facility can be challenging if you don't have the right tools for the job. The **CR2 & CR2 Jr.** from EDIC simplifies restroom cleaning for professional cleaners and provides a proven **touch-free cleaning system** for unmatched cleaning results that you don't have to get your hands dirty to achieve.

Deep Clean Restrooms Without Getting Your Hands Dirty

- Touch-free system deep cleans where mop and bucket fail, leaving the restroom clean and healthy
- Adjustable 550 psi pump (operating pressure 75-500 psi) provides versatile and effective cleaning into the porous tile and grout lines and hard to reach places
- Pump adjusts down to 75 psi in rinse mode to reduce splashing and overspray when rinsing toilets and other fixtures
- Clean carpet with HEAT! Optional 2000 watt external heater - boosts cleaning performance (CR2 only)
- Complete Package: Squeegee wand with dual head, spray gun, gulper tool, QuickDri, hand squeegee, sink attachment, and hoses included
- Built-in auto chemical feed system for high productivity and accurate chemical metering
- Wand, gun, and hose caddies designed for easy transport and storage
- CR2 has 17 gallon capacity for long run-times and CR2 Jr. has 12 gallon capacity in a compact unit
- Optional carpet cleaning kit for deep restorative carpet and upholstery cleaning (CR2 only)
- Simple two bolt access to components for easy maintenance and service
- Laminated operations card with links to training videos

Sink fill adapter hose kit

Durable High/Low Pressure Spray Gun

REVOLUTION TILE & GROUT

The Revolution is a tile and grout-cleaning tool that provides remarkably smooth operation, gliding easily over the floor for less operator fatigue. It has a lightweight design — only 13 lbs.! — yet it's engineered for outstanding durability. It works on uneven surfaces like grouted tile or smooth surfaces such as concrete, and can be used with truck-mounts or portables.

MODEL:

1200REV - 12" Revolution hard surface tool, repairable ceramic swivel, 1.5"

DUAL HEAD SQUEEGEE

The dual head aluminum squeegee wand can be attached to any extractor with 1½" diameter hose to provide quick water recovery on hard surfaces. Dual heads to scrub tough spots with the brush, then flip the head over to the squeegee for extraction.

MODEL:

334ACH-2 - Dual head squeegee wand

SQUEEGEE WAND

The aluminum squeegee wand can be attached to any extractor with 1½" diameter hose to provide thorough cleaning of hard floor surfaces. Clean and effectively remove surface water quickly with this powerful and effective tool.

MODEL:

334ACH - Single-jet squeegee wand

MR. GUN - 500 PSI

Mr. Gun from EDIC is a commercial grade misting tool for quickly applying disinfecting chemicals to multiple types of surfaces in public facilities and public areas.

MODEL:

9000AC-2 - Mr. Gun for applying disinfecting chemicals to surfaces in a fine mist. For use with 500 psi machines.

COUNTERTOP REVOLUTION

The 7" Countertop Revolution is a smaller, hand held version of the popular Revolution tile & grout tool. Clean horizontal and vertical surfaces! The unique tear-drop design allows you to clean into the corners and tight spaces.

MODEL:

700REV - 7" Countertop Revolution hard surface tool, Handles up to 2500 PSI.

HIGH PRESSURE SPRAY GUNS

EDIC high pressure spray guns are great for touch-free cleaning. Extension lances can help you clean high, low and in hard to reach places.

MODELS:

9000AC - Spray gun
9000AC-24 - Spray gun with 24" insulated lance
9000AC-36 - Spray gun with 36" insulated lance

MR. GUN - 200 PSI

Mr. Gun from EDIC is a commercial grade misting tool for quickly applying disinfecting chemicals to multiple types of surfaces in public facilities and public areas.

MODEL:

9000AC-3 - Mr. Gun for applying disinfecting chemicals to surfaces in a fine mist. For use with the Counter Strike machine.

PTAC CLEANING CRADLE™

IN-ROOM PTAC CLEANING SYSTEM

Hundreds of PTAC units can be found in hotels, condominiums, apartments, assisted living facilities, college dorms, and other public and Private facilities.

If PTAC units go without regular cleaning maintenance, they can have a severe negative impact on indoor air quality, increased energy consumption, and even a decrease in the life span of the PTAC unit.

If cleaning maintenance is neglected too long, property owners and managers can face expensive damage to rooms and property and costly downtime in occupancy.

MODELS:

7000AC - Patented PTAC Cleaning Cradle with hose connector
2700IX-PTAC-K - Galaxy Pro extractor with PTAC cleaning tools

If you are a property owner looking for a simple solution for regular PTAC cleaning maintenance or a contractor interested in additional revenue from a new service, the patented PTAC Cleaning Cradle delivers a cost-saving solution that reduces on-site manpower, increases efficiency, and provides a quick return on investment.

Features & Benefits

- The PTAC Cleaning Cradle was engineered to assist in the in-room cleaning of PTAC units (hotels, motels, condominiums, nursing homes, apartments, hospitals, etc.), regardless of the age of the PTAC unit
- The Cradle adjusts vertically from 2.5-16 inches off the floor so it can be used with most PTAC units in any room
- The PTAC Cleaning Cradle tilts forward or backward, left or right, to direct wastewater to the vacuum for constant removal of wastewater during the cleaning process
- Durable Stainless Steel construction, minimum wear on parts, made in the USA
- Works with any cleaning extractor machine that pumps water and has a wet and dry vacuum system
- For all access conditions, one person can load and unload
- A “Green product” in that it saves electricity, keeps mold spores and fungus out, and allows PTAC to be operating more efficiently, thus extending the life of the PTAC, increasing customer satisfaction
- Optional accessories are available for the Galaxy Pro machine for cleaning carpets, stairs, upholstery, etc.

Point Your Phone Camera at this QR Code to Watch the PTAC Cleaning Cradle Video

Multi-Purpose Options

The PTAC Cleaning Cradle can be used with an existing extractor or our other multi-purpose cleaning equipment and high-pressure carpet extractors.

Pair the Cradle with our CR2 touch-free restroom cleaning system. You now have a PTAC cleaning solution, a touch-free restroom cleaner, a heat-ready carpet cleaning solution, and a surface disinfecting system in one complete package.

Fold-down handle for easy storage and transport

FIVESTAR

The amazing Fivestar™ is a small, self-contained unit with powerful brush agitation to clean carpets in any location. It weighs only 40 pounds, so it's light enough for anyone to handle; plus, the compact body design and fold-down handle make it a breeze to transport and store. Remove only two screws, and the machine opens like a clamshell for easy service. The Fivestar is small enough to clean tight spaces and corners yet powerful enough to perform well in any commercial setting. A revolutionary bladder design allows you to fill and empty out of the same bucket and eliminates the need to pour the cleaning solution into the machine. Fill the bucket, set it on the Fivestar, close the lid, and begin cleaning. No more spills or messes!
