Bathing Kit

Single use - Ready to use

A complete ready-to-use hygiene kit designed for professional care environments where traditional bathing is not practical or available. Ideal for bedridden and assisted-care patients.

✓ Natural Preservatives	✓ Fragrance & Dye Free	● No Rinse Needed
✓ pH Balanced	✓ Tested	✓ Single Use

About the Product

A complete ready-to-use hygiene kit designed for professional care environments where traditional bathing is not practical or available. Ideal for bedridden and assisted-care patients.

Key Benefits

- Complete full-body cleansing routine in a single kit
- Single-use format minimises cross-contamination risk
- Supports consistent hygiene protocols across all care units
- Easy to store, transport and distribute at any scale
- Water-activated foam — no sticky residue after use
- Hypoallergenic — safe for sensitive and fragile skin
- Suitable for intimate hygiene

Professional Environments

Hospitals & ICU Units

Homecare Services

Long-Term Care Facilities

Emergency Resp. / EMS

Institutional Care

Pack Content

4 soap-infused fiber sponges (12 × 20 cm)

1 high-absorption 100% viscose drying towel

Water-activated foam

Fragrance-free and dye-free formulation

pH balanced (5.5) Dermatologically tested

Natural preservatives only

Technical Specifications

How it Works

Just Add Water

Activates instantly into a soft cleansing foam. No soap needed.

Lather & Scrub

Rich foam gently lifts dirt and impurities from the skin.

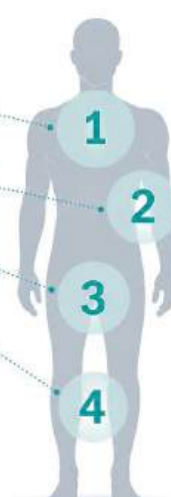

No Rinse Needed

Pat the skin with single use towel included in the kit.

One kit.
One patient.
One complete hygiene routine.

Use one sponge for each area.

Carton weight	0.98 kg ± 10%
Cartons / pallet	120 cartons
Pallet dimensions	48 x 40 x 86.5 in
Shelf life	36 mo. (12 mo. once opened)
Product reference	MK-010
Barcode (pack)	8426696004344

Why it Outperforms Wipes & Traditional Bathing

The standard US bathing protocol relies on wet wipes — which spread dirt, dry skin, and risk cross-contamination. Our soapy sponge delivers a genuine foam-based clean with fewer products, less waste, and better patient outcomes.

Feature	Soap+Sponge+Water	Wet Wipes	Soapy Sponge (Ours)
Cleansing Power	✓ Decent, needs rinsing	✗ Spreads dirt	✓ Deep clean with rich foam
Foam / Suds	✓ With lots of water	✗ None	✓ High lather with a few drops
Chemical-Free Formula	✗ Varies	✗ Alcohol & additives	✓ Natural preservatives only
Skin-Friendly	✗ Can irritate	✗ May dry skin	✓ Gentle, non-irritating
Hygienic (Single Use)	✗ Needs drying/storing	✗ Cross-contamination risk	✓ Safe single-use
Quantity per Bath	✗ Multiple steps	✗ 5–8 wipes	✓ 1 KIT
Shelf Life (Unopened)	✗ ~1 year	✗ ~1 year	✓ +3 years (dry product)
Once Opened	✗ ~1 month	✗ Dries out fast	✓ +1 year
