Business Presentation

Faceboobs is a revolutionary project that combines blockchain technology and social networking to provide users with a censorship-free photo-sharing experience.

Facebookoobs is a decentralized cryptocurrency that allows users to earn and use tokens to access a cutting-edge social platform in advance.

Our goal is to create a space where users can share photos without the fear of censorship.

The origin

The name and inspiration behind the Faceboobs project began with a tweet from Elon Musk, suggesting to Mark Zuckerberg to rename Facebook to "Faceboob."

This seemingly eccentric but emblematic proposal sparked a series of viral reactions and discussions on social media.

Faceboobs was born to bring this vision to life, ensuring an online community that challenges taboos and promotes openness, inclusivity, and freedom of expression.

We are excited to advance this mission, inspired by a name that echoes the need for change and giving voice to the users' needs!

The Token

The token is the financial core of the Faceboobs platform, with a total supply of 1 billion tokens on the BSC network. Users will incur a 4% fee when purchasing and a 4% fee when selling the cryptocurrency.

These fees will fund the platform's development, including new features, security, user empowerment, and privacy enhancements, ensuring ongoing growth and adaptation to community needs.

Face**bo**bs

Private Sale

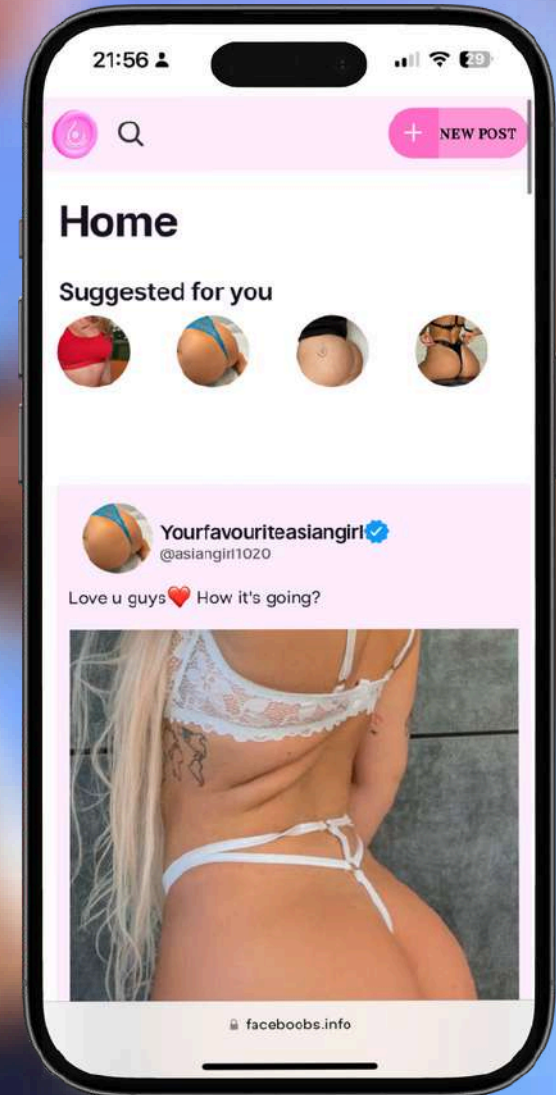

The token will have a private sale phase to allow larger investors to significantly contribute to Facebook's future.

During this phase, investors can acquire tokens on favorable terms, raising funds for the platform's development and establishing strategic partnerships.

This initiative highlights Faceboobs' commitment to long-term growth and success, providing advantageous investment opportunities for supporters.

How to buy the token

Our token will be highly accessible and decentralized from the start, listed on DEXs like PancakeSwap

A hand is shown holding several gold coins. The background is a blurred crowd of people. Two pink callout boxes with black text are positioned to the right of the hand. A pink coin is visible at the bottom of the frame.

Users can purchase it directly by inputting the provided contract, ensuring transparency and minimal fees

The token will be based on the Ethereum network, providing a reliable and established infrastructure for transactions

Listing on CEX

We're expanding Faceboobs to centralized exchanges (CEX) to boost visibility and access. Initially focusing on decentralized exchanges (DEX) for community engagement, we now aim to leverage CEX for higher trading volumes and a broader audience.

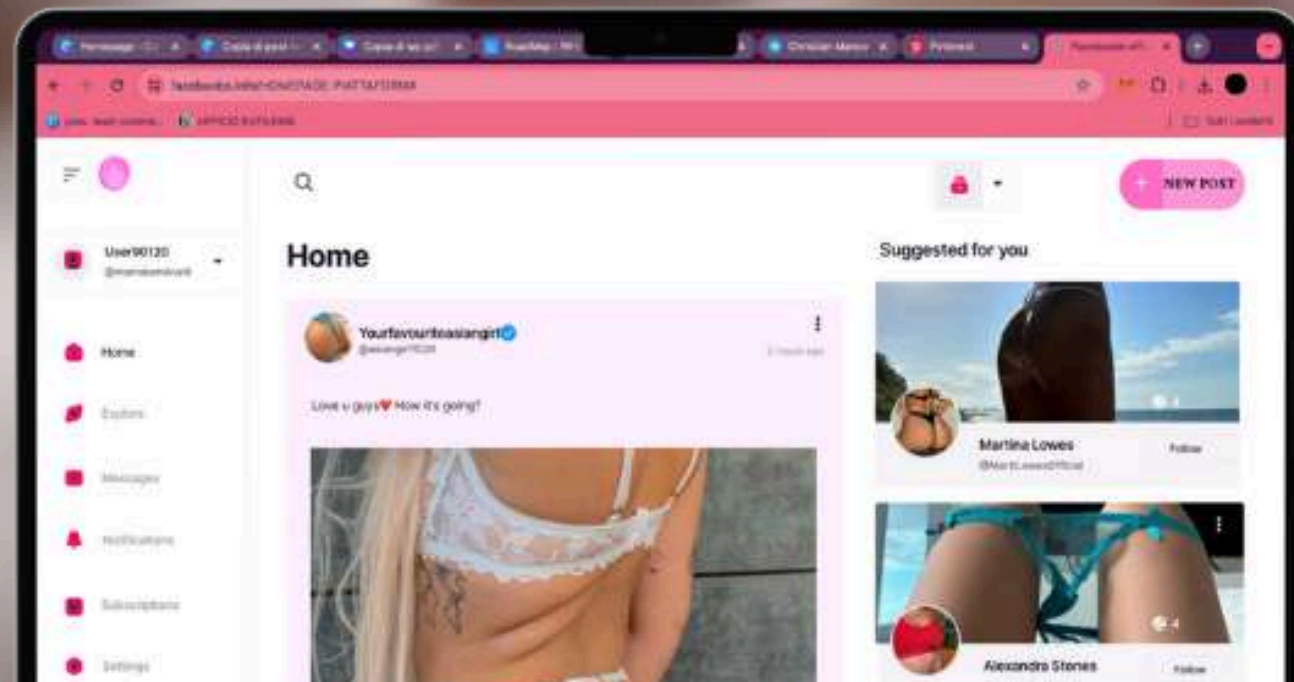

This strategy balances decentralization with CEX expansion, creating a dynamic, sustainable ecosystem

By increasing token accessibility, we advance our mission of global user empowerment and individuality celebration

This move is key to Facebook's significant growth and promising future

The platform

Faceboobs offers unprecedented freedom in social media, challenging censorship with our unique "Boobs Mode." This feature allows users to switch between censored and uncensored modes, ensuring a tailored, flexible experience

Completely free and inclusive, Faceboobs lets users earn and use tokens to customize their experience, fostering greater participation and connection. User safety and privacy are paramount, supported by advanced control and consent tools

Launching by September 2024, with previews and demos available sooner, Facebooks aims to revolutionize online sharing, celebrating individuality, empowerment, and free expression

Earning strategies for users

Facebooks enhances user experience with a rewards system where users earn tokens by participating in the platform

Monthly initiatives like contests and creative challenges will provide extra tokens and boost community engagement

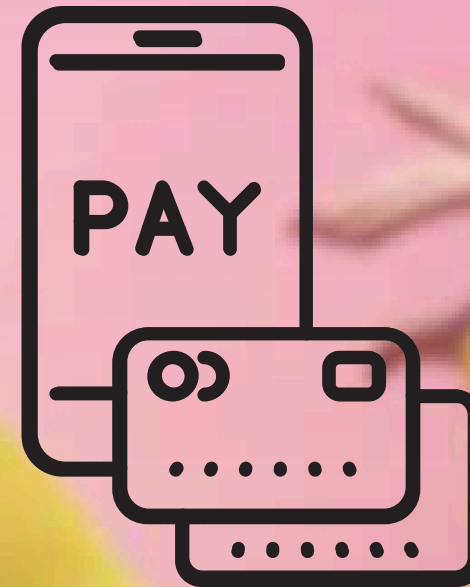

Earning strategies for creators

We're excited to announce that Faceboobs will revolutionize creator earnings by allowing the sale of private content with zero commissions

Creators will keep 100% of their earnings, reflecting our commitment to empowering users and maximizing their profits

his policy prioritizes creators' interests, encouraging high-quality content and ensuring they receive full recognition for their work

Marketing Plan

Key elements include long-term collaborations with influencers from various niches, who will create and share content on our platform, expanding our reach and promoting our mission worldwide

We will also use social media and Google advertising to enhance brand awareness and attract new users

Additionally, global billboard campaigns will capture attention offline, bringing our message to major cities

This multifaceted approach aims to build a global, diverse community focused on user empowerment and celebrating individuality

Faceboobs aspires to be a beacon of online freedom of expression and inclusivity
