India's Trusted Brand for Premium WPC Doors!

About Us

Nevea Doors is a leading WPC door manufacturer in India, renowned for crafting products that combine longevity, aesthetics, and strength. Our doors and frames deliver exceptional durability and moisture resistance, making them ideal for both residential and commercial spaces. We offer a diverse product range, including standard and customized solutions, ensuring we meet every client’s unique needs.

With a strong presence in Chennai and Bangalore, we stay ahead by integrating modern architectural trends with sustainable technologies. Our commitment to quality and innovation has established us as a trusted brand in the industry. We are dedicated to consistently refining our products, delivering excellence, and exceeding customer expectations. By providing advanced, reliable door solutions, Nevea Doors continues to set benchmarks and serve markets across India and beyond.

India’s No 1 Manufacturer
of Premium WPC Doors

*Innovation at Your Doorstep:
Redefining WPC Doors with Petra One!*

WHY choose us?

Security

WPC doors offer superior security with a solid, impact-resistant core and compatibility with advanced locking systems.

Fire Retardant

WPC doors have good fire resistance due to their composite material and fire-retardant additives, with ratings up to 120 minutes.

Low Maintenance

Forget maintenance. Our WPC doors are durable, waterproof, pest-proof, and never need painting or sanding. Just wipe clean.

UV Protected

Our WPC doors are UV-protected. This feature prevents fading, cracking, and warping over time, ensuring the door retains its aesthetic appeal and structural integrity.

Design & Size Options

WPC doors come in various design and sizes, allowing you to choose a style and size that complements your property's aesthetics.

Weather Resistance

WPC doors are highly resistant to weather elements, including extreme heat, cold and moisture, ensuring their longevity. They are also resistant to termite attacks.

Easy Installation

Installation of WPC doors is relatively easy due to their well-designed structure and they accompanying installation instruction.

Eco-Friendly

WPC is a recyclable material, making steel doors an eco-friendly choice and a better alternative to wooden doors-helping conserve trees,

Durability

WPC doors are highly durable and resistant to wear and tear, making them a long-lasting investment for your property.

Noise Reduction

WPC doors offer excellent soundproofing, helping to minimize external noise and create a quieter indoor environment.

Termite Proof

WPC doors are termite-resistant, offering long-lasting protection-unlike wooden doors, which are prone to termite damage, warping and deterioration.

Better Aesthetic Appeal & Finish

superior aesthetic appeal and finish, diverse designs, durability, and easy maintenance for lasting beauty.

ONE Stop Solution for all your Door needs!

1 BESPOKE DOORS :

Nevea Doors composes India's first Printed WPC Doors and Door Frames. It specializes in a bespoke collection for residential and commercial spaces, combining craftsmanship with advanced engineering. With a focus on experimentation and innovative materials, we ensure your home or project gives an appealing look, uniquely designed.

2 FEATURES :

High Quality Printed WPC Frames

Matching printed frames and leaf, crafted in-house for seamless finish, unlike traditional hand-painted methods. Provides premium look, UV protection, and superior durability not found elsewhere.

High Density WPC Core Material

A unique core with 0.7 density, combining 20% wood and 80% plastic. This results in unbeatable rigidity, waterproofing, and long-lasting durability for every application.

Infinite Lock Variations

Exceptional core rigidity lets any lock type—cylinder, mortise, lever, or rose handle—fit securely and easily, thanks to high screw grip and stability.

Unique Printed Grooving & Carving Details

Ultra-dense material allows for sophisticated CNC grooving, carvings, and HD printing details, setting a new benchmark in door design elegance and customization.

3 7 DOOR VARIATIONS :

- » Plain Doors (P)
- » Plain Grooved Doors (PG)
- » One Side Printed Doors (1SP)
- » Double Side Printed Doors (2SP)
- » One Side Grooved & One Side Printed Doors (1SG & 1SP)
- » One Side Grooved & Double Side Printed Doors (1SG & 2SP)
- » Double Side Grooved & Double Side Printed Doors (2SG & 2SP)

FAQs

1. Can a Printed WPC Door be installed in a wooden frame?

Yes, Printed WPC Nevea Doors can be installed into wooden frames using standard installation practices, provided the frame is in good condition and the correct clearances are maintained during fitting.

2. Are Printed WPC Doors moisture, termite, and borer resistant?

Printed WPC doors are highly resistant to moisture, termites, and borers, making them suitable for all climatic zones, including humid or coastal environments.

3. What is the correct wall opening size for installation?

The wall opening should match the selected WPC door size, allowing for a clearance of 3-4mm at the sides and top, and 5-8mm at the bottom, as specified by the manufacturer for hassle-free fitting.

4. When should Printed WPC Doors be installed during construction?

These doors are best installed after wall plastering and flooring is complete, and preferably before final painting and decorative finishes for optimal results.

5. Who installs Printed WPC Petra Doors?

Printed WPC Nevea Doors can be easily installed by any Carpenter on site, ensuring professional fitting and reliability from start to finish.

6. How long does it take to deliver a Printed WPC Nevea Door?

Delivery times vary with availability, design selection, and location; it's recommended to confirm timelines with the dealer when placing the order to ensure smooth scheduling.

7. How do I clean and maintain a Printed WPC Door?

Regular wiping with a soft cloth and mild soap solution is recommended. Avoid abrasive cleaners and sharp objects to prevent scratches and prolong the attractive printed finish.

8. Can the lock on a Printed WPC Door be changed?

Exceptional core rigidity lets any lock type—cylinder, mortise, lever, or rose handle—fit securely and easily, thanks to high screw grip and stability.

9. Can I repaint or refinish my Printed WPC Door?

Repainting is possible if desired, but ensure to use paints compatible with WPC surfaces; consult your dealer or manufacturer for approved finishes and touch-up kits to retain the printed texture and durability.

10. Will the Printing in the WPC door fade over time?

Due to the superior quality of the Print by German technology and Japanese Ink, the printing might not wear off or fade over time for at least 15 years.
