PROFESSIONAL SUMMARY

Product Designer with 3.8+ years of experience leading end-to-end product design across complex web platforms. Passionate about simplifying complex workflows through product thinking, scalable design systems, and research-driven design, while collaborating closely with Product and Engineering to deliver measurable business impact.

WORK EXPERIENCE

Nov 2022 — Present	Senior UI/UX Designer + System Designer, Bosscoder Software Services PVT. LTD. - Led the end-to-end product design of Bosscoder Academy's learning platform, serving 6,700+ registered learners and 2,900+ monthly active users across learning, mentoring, assessments, placements, and community experiences. - Built and scaled a design system comprising 100+ reusable components, establishing consistent design standards that improved collaboration between Design and Engineering teams. - Standardized reusable UI components, documentation, and developer handoff processes, contributing to a ~50% reduction in feature delivery time (from 3–4 weeks to 1.5–2 weeks). - Improved implementation quality through standardized design patterns, helping reduce UI testing and validation cycles by approximately 50% (from 3–4 days to 1–2 days). - Partnered closely with Product, Engineering, QA, and business stakeholders to deliver multiple product initiatives, balancing user needs with business objectives throughout the product lifecycle. - Conducted user research, usability testing, and iterative design validation to identify user pain points and continuously improve core product experiences. - Contributed to the evolution of a rapidly scaling EdTech platform that expanded from 1 Software Engineering charter to 5–6 active charters, supporting business growth from approximately ₹50 lakh to ₹5–7 crore in monthly revenue during my tenure.	Noida
Jun 2022 — Oct 2022	UI/UX Design intern , Suramya - Designed user interface components that improved navigation efficiency and enhanced overall user engagement across the application. - Conducted usability testing to identify design flaws and iterated wireframes, resulting in improved customer satisfaction and reduced user errors. - Collaborated with cross-functional teams to align design solutions with technical constraints, ensuring timely delivery and seamless implementation. - Developed interactive prototypes that facilitated stakeholder feedback, accelerating approval cycles and refining user experience strategy.	WFH
Jan 2022 — Apr 2022	Product Designer Intern, Hitaishi Creatives - Designed functional, manufacturable products balancing usability and engineering constraints. - Conducted market & competitor research to guide product decisions. - Delivered technical drawings and production-ready specifications. - Collaborated with engineers to ensure feasibility and execution quality.	Kolkata

EDUCATION

Jul 2018 - Jul 2022	Bachelors of Design, National Institute of Fashion Technology	Bhopal
2016 - 2017	Class XII (Higher Secondary) Loyola High School	Patna
2015 - 2016	Class X (Secondary) Loyola High School	Patna

SKILLS	User research	Intermediate	Cross-functional collaboration	Advanced
	Information architecture	Advanced	Design systems	Advanced
	Usability testing	Intermediate	Wireframing & Prototyping	Advanced
	Stakeholder Management	Intermediate	Developer Handoff	Advanced
	Figma	Expert	Claude	Advanced
	Lovable	Advanced	ChatGPT	Advanced
	Midjourney	Intermediate		

COURSES

Aug 2021 - Feb 2022	Human Computer Interaction , Interaction Design Foundation
May 2026 - Jun 2022	Foundations of User Experience (UX) Design , Coursera
Dec 2025 - Apr 2026	Service Design: How to Design Integrated Service Experiences , Interaction Design Foundation

LANGUAGES	English	B2 - Upper intermediate	Hindi	Native
	Bengali	C1 - Advanced		

HOBBIES

Traveling, hiking, exploring new cafés, watching movies, and listening to music.
