Cookie Policy

Version 1 (Current)

Effective October 28, 2026

This Cookie Policy explains how vybose.com uses cookies and similar technologies, such as local storage, pixels, and device identifiers. Our Privacy Policy explains how we handle personal information more generally.

1. The short version

vybose.com does not place cookies or store information in your browser. We do not use advertising or cross-site tracking technologies, and we do not sell or share personal information for targeted advertising. Our website analytics works without cookies or persistent identifiers.

2. Cookie categories

Websites commonly group cookies and similar technologies into four categories. This is how each one applies to vybose.com today.

- **Strictly necessary.** Technologies a site needs to deliver pages, keep them secure, and process forms. vybose.com delivers its pages and forms without cookies. Our forms filter spam with hidden form fields, not cookies.
- **Preferences.** Technologies that remember choices such as language or region. vybose.com does not use them.
- **Analytics.** Technologies that measure how a site is used. We use our website platform's built-in analytics to count page visits and see broad trends such as referring sites, country, device, and browser. It does not use cookies or persistent visitor identifiers.
- **Advertising and marketing.** Technologies that track visitors across sites or measure ads. vybose.com does not use them.

3. Information sent with every request

Like any website, your browser sends standard information with each request, such as your IP address, browser type, and the page that referred you, so that pages, fonts, images, and forms can load. The services that deliver those files receive this information to respond to the request.

4. If this changes

If we add cookies or similar technologies beyond those described here, we will update this policy before we use them and, where the law requires, ask for your consent first.

5. Your choices

Your browser settings let you view, delete, or block cookies and other site data. Browser settings do not delete information you have already sent to us; to request that, email legal@vybose.com.

6. External links

Sites we link to have their own cookies and privacy practices. Review their notices before providing information.

7. Changes and questions

We may update this policy as our practices change. Questions can be sent to legal@vybose.com or by mail to Vybose LLC, 5900 Balcones Drive, STE 100, Austin, TX 78731, USA.
